**mama day pdf: The Power of the Porch** Trudier Harris, 1996 In ways that are highly individual, says Harris, yet still within a shared oral tradition, Zora Neale Hurston, Gloria Naylor, and Randall Kenan skillfully use storytelling techniques to define their audiences, reach out and draw them in, and fill them with anticipation. Considering how such dynamics come into play in Hurston's *Mules and Men*, Naylor's *Mama Day*, and Kenan's *Let the Dead Bury Their Dead*, Harris shows how the power of the porch resides in readers as well, who, in giving themselves over to a story, confer it on the writer. Against this background of give and take, anticipation and fulfillment, Harris considers Zora Neale Hurston's special challenges as a black woman writer in the thirties, and how her various roles as an anthropologist, folklorist, and novelist intermingle in her work. In Gloria Naylor's writing, Harris finds particularly satisfying themes and characters. A New York native, Naylor came to a knowledge of the South through her parents and during her stay on the Sea Islands she wrote *Mama Day*. A southerner by birth, Randall Kenan is particularly adept in getting his readers to accept aspects of African American culture that their rational minds might have wanted to reject. Although Kenan is set apart from Hurston and Naylor by his alliances with a new

generation of writers intent upon broaching certain taboo subjects (in his case gay life in small southern towns), Kenan's Tims Creek is as rife with the otherworldly and the fantastic as Hurston's New Orleans and Naylor's Willow Springs.

**mama day pdf:** **Ordinary Enchantments** Wendy B. Faris, 2004 *Ordinary Enchantments* investigates magical realism as the most important trend in contemporary international fiction, defines its characteristics and narrative techniques, and proposes a new theory to explain its significance. In the most comprehensive critical treatment of this literary mode to date, Wendy B. Faris discusses a rich array of examples from magical realist novels around the world, including the work not only of Latin American writers like Gabriel Garcia Marquez, but also of authors like Salman Rushdie, Gunter Grass, Toni Morrison, and Ben Okri. Faris argues that by combining realistic representation with fantastic elements so that the marvelous seems to grow organically out of the

ordinary, magical realism destabilizes the dominant form of realism based on empirical definitions of reality, gives it visionary power, and thus constitutes what might be called a remystification of narrative in the West. Noting the radical narrative heterogeneity of magical realism, the author compares its cultural role to that of traditional shamanic performance, which joins the worlds of daily life and that of the spirits. Because of that capacity to bridge different worlds, magical realism has served as an effective decolonizing agent, providing the ground for marginal voices, submerged traditions, and emergent literatures to develop and create masterpieces. At the same time, this process is not limited to postcolonial situations but constitutes a global trend that replenishes realism from within. In addition to describing what many consider to be the progressive cultural work of magical realism, Faris also confronts the recent accusation that magical realism and its study as a global phenomenon can be seen as a form of commodification and an imposition of cultural homogeneity. And finally, drawing on the narrative innovations and cultural scenarios that magical realism enacts, she extends those principles toward issues of gender and the possibility of a female element within magical realism.
