In his later years, Leo Tolstoy began to contemplate the inescapable realities of mortality—its terrifying mystery, its many indignities, and the way it forces one to look back on the legacy and regrets of one's life. The Death of Ivan Ilyich, widely considered the masterpiece of Tolstoy's late career, is both a deeply insightful meditation on the final months of a man's life, and an unsparing critique of conventional middle-class life in nineteenth-century Russia. But when a seemingly innocuous injury signals the beginning of a terminal illness, Ilyich begins to see the true worth of his life with tragic clarity.

**one minute after you die pdf: The Masque of the Red Death** Edgar Allan Poe, 2020-08-01 The Masque of the Red Death, originally published as The Mask of the Red Death: A Fantasy, is an 1842 short story by American writer Edgar Allan Poe. The story follows Prince Prospero's attempts to avoid a dangerous plague, known as the Red Death, by hiding in his abbey. He, along with many other wealthy nobles, hosts a masquerade ball within seven rooms of the abbey, each decorated with a different color. In the midst of their revelry, a mysterious figure disguised as a Red Death victim enters and makes his way through each of the rooms. Prospero dies after confronting this stranger, whose costume proves to contain nothing tangible inside it; the guests also die in turn. Poe's story follows many traditions of Gothic fiction and is often analyzed as an allegory about the inevitability of death, though some critics advise against an allegorical reading. Many different interpretations have been presented, as well as attempts to identify the true nature of the titular disease. The story was first published in May 1842 in Graham's Magazine and has since been adapted in many different forms, including a 1964 film starring Vincent Price.
