projekt 1065 pdf: *Narratives of Low Countries History and Culture* Jane Fenoulhet, Lesley Gilbert, Ulrich Tiedau, 2016-11-07 This edited collection explores the ways in which our understanding of the past in Dutch history and culture can be rethought to consider not only how it forms part of the present but how it can relate also to the future. Divided into three parts - The Uses of Myth and History, The Past as Illumination of Cultural Context, and Historiography in Focus - this book seeks to demonstrate the importance of the past by investigating the transmission of culture and its transformations. It reflects on the history of historiography and looks critically at the products of the historiographic process, such as Dutch and Afrikaans literary history. The chapters cover a range of disciplines and approaches: some authors offer a broad view of a particular period, such as Jonathan Israel's contribution on myth and history in the ideological politics of the Dutch

Golden Age, while others zoom in on specific genres, texts or historical moments, such as Benjamin Schmidt's study of the doolhof, a word that today means 'labyrinth' but once described a 17th-century educational amusement park. This volume, enlightening and home to multiple paths of enquiry leading in different directions, is an excellent example of what a past-present doolhof might look like.

projekt 1065 pdf: *Airborn* Kenneth Oppel, 2004-05-11 Sailing toward dawn, and I was perched atop the crow's nest, being the ship's eyes. We were two nights out of Sydney, and there'd been no weather to speak of so far. I was keeping watch on a dark stack of nimbus clouds off to the northwest, but we were leaving it far behind, and it looked to be smooth going all the way back to Lionsgate City. Like riding a cloud. . . . Matt Cruse is a cabin boy on the *Aurora*, a huge airship that sails hundreds of feet above the ocean, ferrying wealthy passengers from city to city. It is the life Matt's always wanted; convinced he's lighter than air, he imagines himself as buoyant as the hydrium gas that powers his ship. One night he meets a dying balloonist who speaks of beautiful creatures drifting through the skies. It is only after Matt meets the balloonist's granddaughter that he realizes that the man's ravings may, in fact, have been true, and that the creatures are completely real and utterly mysterious. In a swashbuckling adventure reminiscent of Jules Verne and Robert Louis Stevenson, Kenneth Oppel, author of the best-selling *Silverwing* trilogy, creates an imagined world in which the air is populated by transcontinental voyagers, pirates, and beings never before dreamed of by the humans who sail the skies.
