The RAB Broadcast Calendar 2023: Your Year-Round Programming Strategy

Introduction: Understanding the Importance of Strategic Programming

Radio broadcasting, despite the rise of digital media, remains a powerful communication tool. But merely broadcasting content isn't enough. To thrive in the competitive landscape, radio stations need a robust, strategically planned programming calendar. This calendar isn't just a list of dates; it's a roadmap to success, guiding you through the year with content that resonates with your target audience and maximizes your station's reach and impact. A well-structured calendar ensures consistent engagement, allows for effective promotional campaigns, and optimizes revenue generation opportunities. This ebook provides you with a comprehensive framework for creating your own successful broadcast calendar, using the RAB (Radio Advertising Bureau) principles as a foundation.

Chapter 1: January - March: Setting the Tone for the Year

The first quarter sets the stage for the entire year. January is often a slow period after the holidays, but it offers an opportunity to re-engage your listeners and introduce new content ideas. February presents Valentine's Day promotions, and March brings the anticipation of spring. This chapter will cover:

Identifying Key Dates: Highlighting major holidays, events (Super Bowl, Oscars, etc.), and any local happenings relevant to your listening area. Leveraging these events for themed programming and promotions is key.

Content Strategy: Suggesting various programming options to resonate with your target audience during this period. This includes ideas for talk shows, music playlists focusing on trending genres or nostalgia, and engaging interactive segments.

Promotional Strategies: Developing and implementing effective advertising campaigns. This involves selecting appropriate advertising spots within your programming and targeting specific demographics effectively. Early-year promotions can help establish the tone for the year.

Considering partnerships with local businesses for cross-promotion.

Data-Driven Optimization: Using listener feedback and data analysis to refine programming and identify what is working best. Adjusting your strategy based on initial responses in January will optimize the remainder of the quarter.

Chapter 2: April - June: Capitalizing on Spring & Summer Opportunities

Spring and summer bring a shift in listener behavior. People are more active, spending time

outdoors, and engaging in different activities. This chapter will focus on:

Seasonal Programming: Adapting the programming to reflect the seasonal changes. Incorporating upbeat and summery music, outdoor-related features, and promoting summer events happening in your listening area.

Event Tie-Ins: Identifying and leveraging relevant spring and summer events (local festivals, concerts, sporting events). Creating themed programming around these events allows engagement with the wider community.

Listener Engagement: Increasing audience participation through contests, giveaways, and interactive segments. Summer often offers opportunities for community-based events and live broadcasts.

Summer Advertising Strategies: Focusing on advertising that aligns with summer activities, such as travel, leisure, and outdoor products. This will attract relevant advertisers.

Chapter 3: July - September: Maximizing the Back-to-School & Fall Season

This period marks a significant shift, with back-to-school, and the gradual transition into fall. This chapter will cover:

Back-to-School Programming: Targeting the student demographic with relatable content, including interviews with teachers, back-to-school tips, and music relevant to students.

Fall Programming Themes: Shifting programming to reflect the change in seasons. Incorporating autumnal music, relevant talk show themes, and planning for Halloween and Thanksgiving.

Targeted Advertising: Identifying your demographic and creating advertising strategies to target their interests. This might include back-to-school products, fall fashion, or autumnal activities.

Building Community: Focusing on community-based initiatives and initiatives that promote local businesses in the fall season. This could involve partnerships for local events or special features highlighting local organizations.

Chapter 4: October - December: Holiday Programming & Year-End Planning

The final quarter is crucial for maximizing holiday opportunities and laying the groundwork for the next year. This chapter will:

Holiday Programming: Developing engaging content for Halloween, Thanksgiving, and Christmas. This could include themed music, holiday-specific giveaways, and festive special features.

Year-End Reviews: Analyzing the year's performance, evaluating successes and areas for improvement, and gathering listener feedback. This crucial step allows for strategic changes in the coming year.

Planning for the Next Year: Beginning the process of planning the next year's broadcast calendar, taking into account the lessons learned from the previous year and incorporating new ideas based on market trends and listener data.

Developing a Holiday Advertising Strategy: Reaching out to advertisers offering seasonal promotions or specializing in holiday-related products. This involves creating compelling packages to maximize advertising revenue during this crucial time.

Conclusion: Maintaining Momentum and Refining Your Strategy for 2024

Successful radio programming requires constant adaptation and refinement. This ebook provides a solid foundation for creating a comprehensive broadcast calendar. By consistently monitoring listener feedback, analyzing data, and adapting your strategy, you can maintain momentum and ensure your station's continued success in 2024 and beyond. rab broadcast calendar 2023: *Story Movements* Caty Borum Chattoo, 2020-05-20 Only a few years after the 2013 Sundance Film Festival premiere of *Blackfish* - an independent documentary film that critiqued the treatment of orcas in captivity - visits to SeaWorld declined, major corporate sponsors pulled their support, and performing acts canceled appearances. The steady drumbeat of public criticism, negative media coverage, and unrelenting activism became known as the Blackfish Effect. In 2016, SeaWorld announced a stunning corporate policy change - the end of its profitable orca shows. In an evolving networked era, social-issue documentaries like *Blackfish* are art for civic imagination and social critique. Today's documentaries interrogate topics like sexual assault in the U.S. military (*The Invisible War*), racial injustice (13th), government surveillance (*Citizenfour*), and more. Artistic nonfiction films are changing public conversations, influencing media agendas, mobilizing communities, and capturing the attention of policymakers - accessed by expanding audiences in a transforming media marketplace. In *Story Movements: How Documentaries Empower People and Inspire Social Change*, producer and scholar Caty Borum Chattoo explores how documentaries disrupt dominant cultural narratives through complex, creative, often investigative storytelling. Featuring original interviews with award-winning documentary filmmakers and field leaders, the book reveals the influence and motivations behind the vibrant, eye-opening stories of the contemporary documentary age.

rab broadcast calendar 2023: *Mr. Trump's Wild Ride* Major Garrett, 2018-09-18 Major Garrett has been reporting on the White House for nearly two decades, covering four different presidencies for three news outlets. But if he thought that his distinguished journalistic career had prepared him for the unique challenges of covering Donald Trump, he was in for a surprise. Like many others in Washington, Garrett found himself having to unlearn many of his own settled notions about the nature and function of the presidency. He also had to separate the carnival-like noise of the Trump presidency from its underlying substance. For even in its first half, Trump's tenure has been highly consequential. In *Mr. Trump's Wild Ride*, Major Garrett provides what journalists are often said to do, but usually don't: a true first draft of history. His goal was to sift through the mountains of distracting tweets and shrieking headlines in order to focus on the most significant moments of Trump's young presidency, the ones that Garrett believes will have a lasting impact. The result is an authoritative, mature, and consistently entertaining account of one of the strangest eras in American political history. A consummate professional with unimpeachable integrity, remarkable storytelling skills, and a deep knowledge of his subject earned through decades of experience, Garrett brings to life the twists and turns of covering this White House and its unconventional occupant with wit, sagacity and style. *Mr. Trump's Wild Ride* should place him securely in the first rank of Washington journalists.

Problems in the governance of sports organisations, fixing of matches and staging of major sporting events have spurred action on many fronts. Yet attempts to stop corruption in sport are still at an early stage. The Global Corruption Report (GCR) on sport is the most comprehensive analysis of sports corruption to date. It consists of more than 60 contributions from leading experts in the fields of corruption and sport, from sports organisations, governments, multilateral institutions, sponsors, athletes, supporters, academia and the wider anti-corruption movement. This GCR provides essential analysis for understanding the corruption risks in sport, focusing on sports governance, the business of sport, planning of major events, and

match-fixing. It highlights the significant work that has already been done and presents new approaches to strengthening integrity in sport. In addition to measuring transparency and accountability, the GCR gives priority to participation, from sponsors to athletes to supporters an essential to restoring trust in sport.

rab broadcast calendar 2023: *Handbook of Quantitative Criminology* Alex R. Piquero, David Weisburd, 2009-12-16 Quantitative criminology has certainly come a long way since I was first introduced to a largely qualitative criminology some 40 years ago, when I was recruited to lead a task force on science and technology for the President's Commission on Law Enforcement and Administration of Justice. At that time, criminology was a very limited activity, depending almost exclusively on the Uniform Crime Reports (UCR) initiated by the FBI in 1929 for measurement of crime based on victim reports to the police and on police arrests. A typical mode of analysis was simple bivariate correlation. Marvin Wolfgang and colleagues were making an important advance by tracking longitudinal data on arrests in Philadelphia, an innovation that was widely appreciated. And the field was very small: I remember attending my first meeting of the American Society of Criminology in about 1968 in an anteroom at New York University; there were about 25-30 people in attendance, mostly sociologists with a few lawyers thrown in. That Society today has over 3,000 members, mostly now drawn from criminology which has established its own clear identity, but augmented by a wide variety of disciplines that include statisticians, economists, demographers, and even a few engineers. This Handbook provides a remarkable testimony to the growth of that field. Following the maxim that "if you can't measure it, you can't understand it," we have seen the early dissatisfaction with the UCR replaced by a wide variety of new approaches to measuring crime victimization and offending.

rab broadcast calendar 2023: *Biology of Blood-Sucking Insects* Mike Lehane, 2012-12-06 Blood-sucking insects are the vectors of many of the most debilitating parasites of man and his domesticated animals. In addition they are of considerable direct cost to the agricultural industry through losses in milk and meat yields, and through damage to hides and wool, etc. So, not surprisingly, many books of medical and veterinary entomology have been written. Most of these texts are organized taxonomically giving the details of the life-cycles, bionomics, relationship to disease and economic importance of each of the insect groups in turn. I have taken a different approach. This book is topic led and aims to discuss the biological themes which are common in the lives of blood-sucking insects. To do this I have concentrated on those aspects of the biology of these fascinating insects which have been clearly modified in some way to suit the blood-sucking habit. For example, I have discussed feeding and digestion in some detail because feeding on blood presents insects with special problems, but I have not discussed respiration because it is not affected in any particular way by haematophagy. Naturally there is a subjective element in the choice of topics for discussion and the weight given to each. I hope that I have not let my enthusiasm for particular subjects get the better of me on too many occasions and that the subject material achieves an overall balance.

It focused less on debating the merits or feasibility of individual technologies and more on understanding the implications—the second and third order effects on the Army that must be anticipated ahead of the breakthrough.

Challenging conventional wisdom on the origins and contemporary dynamics of capitalism in the region, these cutting-edge essays demonstrate how critical political economy can illuminate both historical and contemporary dynamics of the region and contribute to wider political economy debates from the vantage point of the Middle East. Leading scholars, representing several disciplines, contribute both thematic and country-specific analyses. Their writings critically examine major issues in political economy—notably, the mutual constitution of states, markets, and classes; the co-constitution of class, race, gender, and other forms of identity; varying modes of capital accumulation and the legal, political, and cultural forms of their regulation; relations among local, national, and global forms of capital, class, and culture; technopolitics; the role of war in the constitution of states and classes; and practices and cultures of domination and resistance. rab broadcast calendar 2023: *The Keeper of Miracles* Phillip Maisel, 2021-07-27 The memoir of a Holocaust survivor keeping alive the stories of his generation. For more than 30 years, Phillip Maisel has worked selflessly to record the harrowing stories of Holocaust survivors. Volunteering at Melbourne's Jewish Holocaust Centre, Phillip has listened tirelessly to their memories, preserved their voices and proven, time and time again, just how healing storytelling can be. Each testimony of survival is a miracle in itself - earning Phillip the nickname 'the Keeper of Miracles'. But, for Phillip, confronting and overcoming trauma is also personal. A Holocaust survivor himself, he, too, has unthinkable stories of triumph and tragedy, cruelty and hope. Published as Phillip turns 99, this

deeply moving, healing and inspiring memoir shows us the cathartic power of storytelling and reminds us never to underestimate the impact of human kindness. 'This is my responsibility and my privilege: to be custodian of their memories, to be able to pass their stories on to the next generation - for me, this will be the greatest miracle of all.'

rab broadcast calendar 2023: One People, Two Worlds Ammiel Hirsch, Yaakov Yosef Reinman, 2009-09-09 After being introduced by a mutual friend in the winter of 2000, Reform Rabbi Ammiel Hirsch and Orthodox Rabbi Yosef Reinman embarked on an unprecedented eighteen-month e-mail correspondence on the fundamental principles of Jewish faith and practice. What resulted is this book: an honest, intelligent, no-holds-barred discussion of virtually every "hot button" issue on which Reform and Orthodox Jews differ, among them the existence of a Supreme Being, the origins and authenticity of the Bible and the Oral Law, the role of women, assimilation, the value of secular culture, and Israel. Sometimes they agree; more often than not they disagree—and quite sharply, too. But the important thing is that, as they keep talking to each other, they discover that they actually like each other, and, above all, they respect each other. Their journey from mutual suspicion to mutual regard is an extraordinary one; from it, both Jews and non-Jews of all backgrounds can learn a great deal about the practice of Judaism today and about the continuity of the Jewish people into the future.

rab broadcast calendar 2023: *Social Media and the Public Interest* Philip M. Napoli, 2019-08-27 Facebook, a platform created by undergraduates in a Harvard dorm room, has transformed the ways millions of people consume news, understand the world, and participate in the political process. Despite taking on many of journalism's traditional roles, Facebook and other platforms, such as Twitter and Google, have presented themselves as tech companies—and therefore not subject to the same regulations and ethical codes as conventional media organizations. Challenging such superficial distinctions, Philip M. Napoli offers a timely and persuasive case for understanding and governing social media as news media, with a fundamental obligation to serve the public interest. *Social Media and the Public Interest* explores how and why social media platforms became so central to news consumption and distribution as they met many of the challenges of finding information—and audiences—online. Napoli illustrates the implications of a system in which coders and engineers drive out journalists and editors as the gatekeepers who determine media content. He argues that a social media-driven news ecosystem represents a case of market failure in what he calls the algorithmic marketplace of ideas. To respond, we need to rethink fundamental elements of media governance based on a revitalized concept of the public interest. A compelling examination of the intersection of social media and journalism, *Social Media and the Public Interest* offers valuable insights for the democratic governance of today's most influential shapers of news.

rab broadcast calendar 2023: *Emily Mann* Alexis Greene, 2021-11-01 *Emily Mann: Rebel Artist of the American Theater* is the story of a remarkable American playwright, director, and artistic director. It is the story of a woman who defied the American theater's sexism, a traumatic assault, and illness to create unique documentary plays and to lead the McCarter Theatre Center, for thirty seasons, to a place of national recognition. The book traces and describes Emily Mann's family life; her coming-of-age in Chicago during the exuberant, rebellious, and often violent 1960s; how sexual violence touched her personally; and how she fell in love with theater and began learning her craft at the Loeb Drama Center in Cambridge, Massachusetts, while a student at Radcliffe. Mann's evolution as a professional director and playwright is explored, first at the Guthrie Theater in Minneapolis, where she received an MFA from the University of Minnesota, then on and off Broadway and at regional theaters. Mann's leadership of the McCarter is examined, along with her battles to overcome multiple sclerosis and to conquer—personally and artistically—the memories of the violence she experienced when a teenager. Finally, the book discusses her retirement from the McCarter, while amplifying her ongoing journey as a theater artist of sensitivity and originality. Mann's many awards include the 2015 Margo Jones Award, the 2019 Visionary Leadership Award

from Theatre Communications Group, and the 2020 Lilly Award for Lifetime Achievement. In 2019, she was inducted into the Theater Hall of Fame for Lifetime Achievement in the American Theater.

rab broadcast calendar 2023: Sefer Hasichos 5700 - English Rabbi Yosef Yitzchok Schneersohn, 2015-10-12 Talks by the Rebbe Rayatz in 5700, late 1939 to late 1940, for the first time in English.1. Sichos delivered in winter in Europe2.Sichos from his arrival in New York on March 19, 1940, until Rosh Hashanah eve.After surviving a lifetime of painful and life-threatening crisis, Yaakov Avinu yearned to live a life of tranquility. Nevertheless, the A-mighty said: Are tzaddikim not satisfied with what awaits them in the World to Come, and they also seek tranquility in this world?!Likewise, the Previous Rebbe, went through more turbulence than tranquility. After torment,incarceration and capital sentence in Russia and other challenges in Latvia and Poland, he could have wanted to live a quiet life but he had yet to endure three months in the blockade of Warsaw, horrors of which are graphically described in chapter 8. After his remarkable release and a brief stopover in Latvia, he went from Europe throughSweden to America, which did not greet the Rebbe Rayatz with a smile in that the complacency of the Jewish communal establishment, including some the veteran chassdic migrants who, instead of working desperately to revive and actualize their Old World ideals, had allowed them to fade. Yet the Rebbe Rayatz never allowed his sense of trauma to paralyze his optimism, but rather it spurred him ahead to vigorous and pioneering outreach activity.Talks in this book were delivered in Riga, New York and Lakewood. They pulsate with creative and inspiring interpretations of Biblical and Talmudic teachings; heartwarming descriptions of incidents and encounters in Lubavitch; pungent admonition; candid childhood memories; energizing stories and oral traditions, and colorful personalities whose portraits spring into life.

rab broadcast calendar 2023: An Unpromising Land Gur Alroey, 2014-06-11 The Jewish migration at the end of the nineteenth and beginning of the twentieth centuries was one of the dramatic events that changed the Jewish people in modern times. Millions of Jews sought to escape the distressful conditions of their lives in Eastern Europe and find a better future for themselves and their families overseas. The vast majority of the Jewish migrants went to the United States, and others, in smaller numbers, reached Argentina, Canada, Australia, and South Africa. From the beginning of the twentieth century until the First World War, about 35,000 Jews reached Palestine. Because of this difference in scale and because of the place the land of Israel possesses in Jewish thought, historians and social scientists have tended to apply different criteria to immigration, stressing the uniqueness of Jewish immigration to Palestine and the importance of the Zionist ideology as a central factor in that immigration. This book questions this assumption, and presents a more complex picture both of the causes of immigration to Palestine and of the mass of immigrants who reached the port of Jaffa in the years 1904-1914.

Now, in response to the clamorous demands of men of science and the arts, men of steam, of straw and of the law, comes Further Cuttings from Cruiskeen Lawn. Flann O'Brien adopted the name Myles na Gopaleen for the hilarious Cruiskeen Lawn column which he wrote for The Irish Times from 1940-1966. Whereas The Best of Myles covered the first five years of the column's life, this companion edition covers the period from 1947-1957. Here can be found the true transcripts of Myles's clashes with the law courts on charges of larceny, currency offenses, marrying without the consent of his parents, gang warfare, and using bad language; here

too are bizarre obituaries, bores, banalities, jovialities and immoralities, and the return of the preposterous Brother. Also included is the first-ever Myles article.

rab broadcast calendar 2023: Richard Hofstadter: Anti-Intellectualism in American Life, The Paranoid Style in American Politics, Uncollected Essays 1956-1965 (LOA #330)

Richard Hofstadter, 2020-04-21 Together for the first time: two masterworks on the undercurrents of the American mind by one of our greatest historians Richard Hofstadter's Anti-Intellectualism in American Life and The Paranoid Style in American Politics are two essential works that lay bare the worrying trends of irrationalism, demagoguery, destructive populism, and conspiratorial thinking that have long influenced American politics and culture. Whether underground or--as in our present moment--out in the open, these currents of resentment, suspicion, and conspiratorial delusion received their authoritative treatment from Hofstadter, among the greatest of twentieth-century American historians, at a time when many public intellectuals and scholars did not take them seriously enough. These two masterworks are joined here by Sean Wilentz's selection of Hofstadter's most trenchant uncollected writings of the postwar period: discussions of the Constitution's framers, the personality and legacy of FDR, higher education and its discontents, the relationship of fundamentalism to right-wing politics, and the advent of the modern conservative movement.
