**sexsi irani: Sex and the Single Girl** Helen Gurley Brown, 2012-07-10 The 1962 blockbuster that took on “one of the most absurd (if universal) myths of our time: that every girl must be married” (The New York Times). Helen Gurley Brown, the iconic editor in chief of Cosmopolitan for thirty-two years, is considered one of the most influential figures of Second Wave feminism. Her first book sold millions of copies, became a cultural phenomenon, and ushered in a whole new way of thinking about work, men, and life. Feisty, fun, and totally frank, *Sex and the Single Girl* offers advice to unmarried women that is as relevant today as it was when it burst onto the scene in the 1960s. This spirited manifesto puts women—and what they want—first. It captures the exuberance, optimism, and independence that have influenced the lives of so many contemporary American women.

**sexsi irani: Iranian Cinema** Hamid Reza Sadr, 2006-09-29 Recent, post-revolutionary Iranian cinema has of course gained the attention of international audiences who have been struck by its powerful, poetic and often explicitly political explorations. Yet mainstream, pre-revolutionary Iranian cinema, with a history stretching back to the early twentieth century, has been perceived in the main as lacking in artistic merit and, crucially, as apolitical in content. This highly readable history of Iran as revealed through the full breadth of its cinema re-reads the films themselves to tell the full story of shifting political, economic and social situations. Sadr argues that embedded within even the seemingly least noteworthy of mainstream Iranian films, we find themes and characterisations which reveal the political contexts of their time and which express the ideological underpinnings of a society. Beginning with the introduction of cinema to Iran through the Iranian monarchy, the book covers the broad spectrum of Iran's cinema, offering vivid descriptions of all key films. Iranian Cinema looks at recurring themes and tropes, such as the rural versus the 'corrupt' city and, recently, the preponderance of images of childhood, and asks what these have revealed about Iranian society. The author brings the story up to date explaining Iranian filmmaking after the events of September 11, from Mohsen Makhmalbaf's astonishing *Kandahar* to Sadiq Barmak's *angry work Osama*, to explore this most recent and breathtaking revival in Iranian cinema.

**sxsi irani:** *The Politics of Women's Rights in Iran* Arzoo Osanloo, 2009-03-29 Osanloo Arzoo presents an ethnographic study that explores how conceptions of liberal entitlements fused with a discourse of equality in Islam in the post-revolutionary era to inform & shape women's perceptions of rights.

**sxsi irani:** *Becoming Visible in Iran* Mehri Honarbin-Holliday, 2009-02-28 The state of women in Islamic societies is the subject of much interest and heated debate. Yet, these discussions and representations in the media and elsewhere rely on inadequate information and misperceptions, imagining Muslim women as oppressed victims in need of liberation by outside forces. 'Becoming Visible in Iran' disputes these widespread stereotypes, providing a vivid account of women in contemporary Iran as they go about their daily lives. Beginning at home, women are infusing dramatic change by challenging the patriarchal conceptions of their fathers, brothers, uncles and others within the intimate sphere of family and home. Empowered by education, they transport the power of their minds and being from the domestic to the public and political. Mehri Honarbin-Holliday presents the experiences of these young women who wield a key if indirect political influence on the seemingly male dominated politics of this society, as they achieve a new visibility. She shows us how women understand their place in contemporary Iranian society, and how they interrogate it, making demands for shifts in attitudes and behaviours, both at home in relation to male relatives and in the wider world. Women's daily existence weaves between the public and the private, from home to classrooms, parks, metros, cafes and taxis, negotiating socio-political limitations and the current regime's policies of female invisibility. Detailed interviews and striking narratives draw our attention to the women's reflexive and critical stance and their desires to be recognized as independent and active architects of their own personal lives, whilst also contributing to the discourses of change and a more just civil society. From this fieldwork, and focusing especially on young women, Honarbin-Holliday presents women's views on such key topics as public visibility, body presentation, and sexual curiosity, in addition to education, civil society and political and social change. Highlighting links and continuities with the history of women in Iran, from the early twentieth century to the present moment, she shows how Iranian women today strive: to be the author of one's fate, to resist narrow interpretations of religion, to conduct meaningful, rich and complex lives, to bring about change in the mindsets of male relatives, and to contribute to legal and political debates in the country. For its direct presentation of women's voices as well as its analysis and insight, this book is a vital contribution to our understanding of the lives of Muslim women and the possibilities before them today. 'Becoming Visible in Iran' is indispensable for those concerned with women in Islamic societies, gender studies, sociology, anthropology as well as Iran and the Middle East.

**sxsi irani:** *Orality and Textuality in the Iranian World* , 2015-05-13 The volume demonstrates the cultural centrality of the oral tradition for Iranian studies. It contains contributions from scholars from various areas of Iranian and comparative studies, among which are the pre-Islamic Zoroastrian tradition with its wide network of influences in late antique Mesopotamia, notably among the Jewish milieu; classical Persian literature in its manifold genres; medieval Persian history; oral history; folklore and more. The essays in this collection embrace both the pre-Islamic and Islamic periods, both verbal and visual media, as well as various language communities (Middle Persian, Persian, Tajik, Dari) and geographical spaces (Greater Iran in pre-Islamic and Islamic medieval periods; Iran, Afghanistan and Tajikistan of modern times). Taken as a whole, the essays reveal the unique blending of oral and literate poetics in the texts or visual artefacts each author focuses upon, conceptualizing their interrelationship and function. **sxsi irani: *Industrial Organization in Iran*** Yoko Iwasaki, 2017-07-11 This book focuses on Iran to explore the question of how the nature of industrial organizations and the whole system they constitute can exert a great influence on an industry's competitiveness and resilience. The author examines what happens if firms and companies participating in the manufacturing and distribution process of a certain product are not organized to a high degree and operate independently. The book begins with an inquiry into the historical environment of Iran's apparel industry, which has never been stable. It then reveals the specific practices that enable firms to maintain their independent business, and argues that the elastic state of the production and distribution system has worked for the survival of self-reliant member firms. The typical Iranian apparel firm persists in maintaining independent operations regardless of its size, a practice that is inimical to the development of long-lasting business relations with other firms as well as to vertical integration between firms, in all stages from production to distribution. A distinguishing feature of Iran's apparel industry is that the member firms are barely organized compared with their counterparts in advanced industrialized countries. Despite such a weakly organized system, generally small-scale but self-reliant Iranian firms courageously persist in the face of the market's difficulties. Superficially, it appears that Iran's apparel market is being filled with Chinese goods, but the reality is somewhat different. Apparel firms that are currently doing business with China but are ready to terminate it at any time are taking advantage of newly emerging opportunities to ensure the survival of their own businesses. Reopening those businesses for domestic operations remains an ever-present possibility for them.

**sxsi irani: *Women in Place*** Nazanin Shahrokni, 2019-12-24 While much has been written about the impact of the 1979 Islamic revolution on life in Iran, discussions about the everyday life of Iranian women have been glaringly missing. *Women in Place* offers a gripping inquiry into gender segregation policies and women's rights in contemporary Iran. Author Nazanin Shahrokni takes us onto gender-segregated buses, inside a women-only park, and outside the closed doors of stadiums where women are banned from attending men's soccer matches. The Islamic character of the state, she demonstrates, has had to coexist, fuse, and compete with technocratic imperatives, pragmatic considerations regarding the viability of the state, international influences, and global trends. Through a retelling of the past four decades of state policy regulating gender boundaries, *Women in Place* challenges notions of the Iranian state as overly unitary, ideological, and isolated from social forces and pushes us to contemplate the changing place of women in a social order shaped by capitalism, state-sanctioned Islamism, and debates about women's rights. Shahrokni throws into sharp relief the ways in which the state strives to constantly regulate and contain women's bodies

and movements within the boundaries of the “proper” but simultaneously invests in and claims credit for their expanded access to public spaces.

**sxsi irani:** *Whisper Tapes* Negar Mottahedeh, 2019-02-05 “Lyrical, intelligent, and passionately written, *Whisper Tapes* reignites a long dormant conversation about the urgency of global feminism.” —Shilyh Warren, University of Texas at Dallas Kate Millett was already an icon of American feminism when she went to Iran in 1979. She arrived just weeks after the Iranian Revolution, to join Iranian women in marking International Women's Day. Intended as a day of celebration, the event turned into a week of protests. Millett, armed with film equipment and a cassette deck to record everything around her, found herself in the middle of demonstrations for women's rights and against the mandatory veil. Listening to the revolutionary soundscape of Millett's audio tapes, Negar Mottahedeh offers a new interpretive guide to Revolutionary Iran, its slogans, habits, and women's movement—a movement that, many claim, Millett never came to understand. Published with the fortieth anniversary of the Iranian Revolution and the women's protests that followed on its heels, *Whisper Tapes* re-introduces Millett's historic visit to Iran and lays out the nature of her encounter with the Iranian women's movement. “In offering a deeply contingent history, Negar Mottahedeh beautifully shows Kate Millett's simultaneous closeness to and distance from the events surrounding her.” —Behrooz Ghamari-Tabrizi, Princeton University “Lyrical in style and poetic in meaning, *Whisper Tapes* challenges readers to adopt an intersectional view of Iranian feminist movements while adding layers and dimensionality to Millett's preexisting literature.” —Aisha Jitan, *The Middle East Journal* “Mottahedeh's illuminating study complements Millett's work and offers a more nuanced reading of a historic moment.” —Lucy Popescu, *Times Literary Supplement*

**sxsi irani:** *Gender in Contemporary Iran* Roksana Bahramitash, Eric Hooglund, 2011-03-29 This book examines gender and the dynamics of social change in contemporary Iran, documenting the changes in women's lives and showing how women have now become agents of social change rather than victims. Bringing together the detailed primary research of a number of eminent scholars working in Iran, this collection provides unique perspectives on the past decade in Iranian society. Chapters document and examine how different Iranian groups and classes are negotiating, resisting, and pressing for political and social change, to explore the complexity of a society that often is portrayed in monolithic stereotypes in the international media. Thematically arranged sections explore discourses around gender and the impact of these discourses on women; the gendered impact of educational, employment, communications, and cultural changes; changing gender attitudes among the post-revolutionary generation of youth; and the ways economic changes have been affecting women. Providing an important basis for understanding social and political developments in a country that has been a focus of international attention for much of the last decade, this collection will be an important reference for scholars of Iranian studies, gender studies, political science and sociology.

Readers will learn about effective industrial, trade, and employment policies that can complement macroeconomic measures adopted by the government. As such, the book will appeal not only to scholars and policy-makers, but also to international investors seeking to understand various core aspects of Iran's industrial and employment structures and trade regime.

**sxsi irani:** *The Iranian Space Endeavor* Parviz Tarikhi, 2014-07-19 Provides a detailed look at the events and policies surrounding the Iranian space endeavor. For those who see the trend of progress and movement of the Iranian space endeavor from the outside, it can be difficult to understand what goes on behind the scenes. However, for one who observes these events firsthand, they take on a very different meaning. In this book, the author brings new and different profiles of Iran's space endeavor to light. Iran claims to be the ninth leading country in the world capable of manufacturing satellites and launching them, plans to land an astronaut on the Moon within a decade, and says its own president plans to be the first Iranian astronaut to travel into space. The author explains in this book that not all of these claims are quite as they seem. In addition to technical explanations, the book also includes historical, legal, social and cultural aspects of Iran's space program as well. It is the author's goal to create a tangible feeling of Iran's space endeavor for the readers.

**sxsi irani:** *Iranian Romance in the Digital Age* Janet Afary, Jesilyn Faust, 2021-01-28 Following the 1979 Islamic Revolution, there was a dramatic reversal of women's rights, and the state revived many premodern social conventions through modern means and institutions. Customs such as the enforced veiling of women, easy divorce for men, child marriage, and polygamy were robustly reintroduced and those who did not conform to societal strictures were severely punished. At the same time, new social and economic programs benefited the urban and rural poor, especially women, which had a direct impact on gender relations and the institution of marriage. Edited by Janet Afary and Jesilyn Faust, this interdisciplinary volume responds to the growing interest and need for literature on gender, marriage and family relations in the Islamic context. The book examines how the institution of marriage transformed in Iran, paying close attention to the country's culture and politics. Part One examines changes in urban marriages to new forms of cohabitation. In Part Two contributors, such as Soraya Tremayne, explore the way technology and social media has impacted and altered the institution of family. Part Three turns its eye to look at marital changes in the rural and tribal sectors of society through the works of anthropologists including Erika Friedl

and Mary Hegland. Based on the work of both new and established scholars, the book provides an up-to-date study of an important and intensely politicized subject.

**sxsi irani: Sex Bias in the Schools** Janice Pottker, Andrew Fishel, 1977 The 41 selections included in this volume represent the best examples of the use of different research techniques to document empirically the existence of sex bias in the schools and its effects on American women and girls.

**sxsi irani: The Syria-Iran Axis** Nadia von Maltzahn, 2013-06-30 Since the Iranian Revolution, the close alliance between Syria and Iran has endured for over three decades, based on geopolitical interests between the two states and often framed in the language of resistance. In view of their strong relationship at a state-level, what have Syria and Iran each been doing to foster popular exchange and employ cultural tools to build and image in the other country? The Syria-Iran Axis examines the motivations, content and reach of cultural diplomacy between Syria and Iran to determine to what degree that two partners have been successful in bridging their world views and political outlooks. Beginning with a historical background of relations between the two countries before the overthrow of the Shah, Nadia von Maltzahn offers an analysis of the process of policy formulation, and the key themes which characterize Syrian and Iranian foreign and cultural relations. Whilst the relations between the two countries were limited in the pre-revolutionary period, bilateral relations developed very quickly in the aftermath of the revolution. Uniquely, The Syria-Iran Axis looks beyond the political and military cooperation between the leaders of these two countries, highlighting the economic and cultural connections between the populations. It therefore examines the scientific, academic, military, economic, industrial, telecommunications and cultural delegations that go back and forth between Damascus and Tehran. With key Shi'i shrines situated in Syria, such as the Sayyida Zaynab and the Sayyida Ruqayya mosques in Damascus, there has been for many years a significant level of religious tourism. Bearing in mind that these levels of inter-cultural connection have been threatened by the ongoing unrest in Syria, von Maltzahn also highlights the ways in which this key relationship has been affected by events in the wider geopolitical sphere. By examining the extent to which a state-directed cultural exchange can foster bilateral relations in the Middle East, von Maltzahn offers a unique analysis of the formation of foreign policy and diplomacy in the region.

**sxsi irani: Islam and Gender** Ziba Mir-Hosseini, 2021-05-11 Following the Islamic Revolution of 1979 and the re-introduction of Sharia law relating to gender and the family, women's rights in Iran suffered a major setback. However, as the implementers of the law have faced the social realities of women's lives and aspirations, positive changes have gradually come about. Here Ziba Mir-Hosseini takes us to the heart of the growing debates concerning the ways in which justice for women should be achieved. Through a series of lively interviews with clerics in the Iranian religious center of Qom, she seeks to understand the varying notions of gender that inform Islamic jurisprudence and to explore how clerics today perpetuate and modify these notions. Mir-Hosseini finds three main approaches to the issue: insistence on traditional patriarchal interpretations based on complementarity but inequality between women and men; attempts to introduce balance into traditional interpretations; or a radical rethinking of the jurisprudential constructions of gender. She introduces the debates among the commentators by examining key passages in both written and oral texts and by narrating her meetings and discussions with the authors. Unique in its approach and its subject matter, the book relates Mir-Hosseini's engagement, as a Muslim woman and a social anthropologist educated and working in the West, with Shi'i Muslim thinkers of various backgrounds and views. In the literature on women in Islam, there is no account of such a face-to-face encounter, either between religion and gender politics or between the two genders.

**sxsi irani: Iran and Pakistan** Alex Vatanka, 2015-07-28 The respective policies of the governments of Iran and Pakistan pose serious challenges to US interests in the Middle East, Asia and beyond. These two regional powers, with a combined population of around 300 million, have been historically intertwined in various cultural, religious and political ways. Iran was the first country to recognise the emerging independent state of Pakistan in 1947 and the Shah of Iran was

the first head of state to visit the new nation. While this relationship shifted following the 1979 Iranian Revolution, and tensions do exist between Sunni Pakistan and Shi'i Iran, there has nevertheless been a history of cooperation between the two countries in fields that are of great strategic interest to the US: Afghanistan, nuclear proliferation and terrorism. Yet much of this history of cooperation, conflict and ongoing interactions remains unexplored. Alex Vatanka here presents the first comprehensive analysis of this long-standing and complex relationship.

**sxsi irani: Veiled Employment** Roksana Bahramitash, Hadi Salehi Esfahani, 2011-04-15 The popularity of neoliberal economic policies is based, in part, on the argument that the liberalization of markets promotes growth and increases employment opportunities for women. Although the latest research bears this out, it also presents a grim portrait of the state of women's employment. Approximately 70 percent of those living on less than a dollar a day are women or girls. In *Veiled Employment*, the contributors examine these stark disparities, focusing on the evolving role of women's employment in Iran. Based on empirical field research in Iran, their essays document the accelerating trend in the size and diversity of women's employment since the 1990s and explore the impact of various governmental policies on women. The volume analyzes such issues as the effect of global trade on female employment, women's contributions to the informal work sector, and Iranian female migrant workers in the United States. Rejecting the commonly held view that centers on Islam as the primary cause of women's status in the Muslim world, the authors emphasize the role of national and international political economies. Drawing on postcolonial feminist theory, they reveal the ways in which women in Iran have resisted and challenged Islamism, revealing them as agents of social transformation rather than as victims of religious fundamentalism.

**sxsi irani: Conjugations** Sangita Gopal, 2012-01-26 Bollywood movies have been long known for their colorful song-and-dance numbers and knack for combining drama, comedy, action-adventure, and music. But when India entered the global marketplace in the early 1990s, its film industry transformed radically. Production and distribution of films became regulated, advertising and marketing created a largely middle-class audience, and films began to fit into genres like science fiction and horror. In this bold study of what she names New Bollywood, Sangita Gopal contends that the key to understanding these changes is to analyze films' evolving treatment of romantic relationships. Gopal argues that the form of the conjugal duo in movies reflects other social forces in India's new consumerist and global society. She takes a daring look at recent Hindi films and movie trends—the decline of song-and-dance sequences, the upgraded status of the horror genre, and the rise of the multiplex and multi-plot—to demonstrate how these relationships exemplify different formulas of contemporary living. A provocative account of how cultural artifacts can embody globalization's effects on intimate life, *Conjugations* will shake up the study of Hindi film.

**sxsi irani: A New Structure for Security, Peace, and Cooperation in the Persian Gulf** Seyed Hossein Mousavian, 2020-11-17 Tensions between Iran and its Arab neighbors at the Persian Gulf have often been described as one of the challenges to the world peace and security over the past decade. As a result, one of the puzzles of the current international relations has been the question of whether or not, there are prospects to resolve conflicts between Iran and Saudi Arabia and GCC and envision normalized, friendly diplomatic relations between the two states. This book argues that

normalized and friendly ties between Iran and Saudi Arabia is possible, and indeed, the author shows that there is a historical precedence for it, even in the post-1979 revolutionary Iran. And, if normalized and friendly diplomatic relations are possible between Iran and Saudi Arabia, then, it is not hard to envision that maladies of sectarianism as well as Sunni-Shi'a conflict would subside in the region. The book draws on the author's involvement, conversations, interviews, and personal observations as Ambassador and official over several decades. The book tries to explore the possibilities of diplomatic resolutions to the existing conflicts between Iran and Saudi Arabia and offer a roadmap to achieving sustainable diplomatic relations.

**sxsi irani: Women and Equality in Iran** Leila Alikarami, 2019-05-30 Iran's continued retention of discriminatory laws stands in stark contrast to the advances Iranian women have made in other spheres since the Revolution in 1979. Leila Alikarami here aims to determine the extent to which the actions of women's rights activists have led to a significant change in their legal status. She argues that while Iranian women have not yet obtained legal equality, the gender bias of the Iranian legal system has been successfully challenged and has lost its legitimacy. More pertinently, the social context has become more prepared to accommodate legal rights for women. Highlighting the key challenges that proponents of gender equality face in the Muslim context, Alikarami attempts to ascertain the causes of Iran's failure to ratify the CEDAW and questions whether and to what extent interpretations of Islamic principles prevent Iran from doing so. Applying feminist legal theory to contemporary Iran, Alikarami's approach re-evaluates the underlying principles that have shaped the struggle for equal rights between the sexes.

For the next 105 days, she lived in solitary confinement in the notorious Evin Prison. Weaving together memories of her childhood in Iran, her story of capture and release, and her extensive knowledge of her homeland, *My Prison, My Home* is at once a mesmerizing story of survival and a clear-eyed portrait of Iran today and how it came to be.

**sxsi irani: An Echo of Silence** kameel Ahmady, کمال احمدی, An Echo of Silence A Comprehensive Research Study on Early Child Marriage (ECM) in Iran Kameel Ahmady Whilst

working on the issue of female genital mutilation in Iran “In the Name of Tradition”, in this book, Kameel Ahmady, also brought a focus to the early marriage of children and high rates of this harmful phenomenon in Iran. He conducted a two-year study on child marriage in the seven provinces of Khorasan Razavi, East Azerbaijan, Khuzestan, Sistan and Baluchistan, West Azerbaijan, Hormozgan and Isfahan, drawing on official country statistics. The results of this research have been published in Farsi, Kurdish and English languages. According to the religious structure of Iran, maturity for girls begins with the first monthly menstruation, considered as the threshold of transition from childhood to adulthood which happens around age of 9. This physical and biological threshold means being able to marry, regardless of the actual age and ability to govern your marital life. Although early marriage applies to both young girls and boys, in fact the bitter reality of the society indicates that the consequences and effects of the phenomenon of child marriage on girls are far more serious and dangerous. Undoubtedly, social investment in girls, expanding their social and economic capital and ensuring their access to education and health services is a clear driver towards gender equality to provide for stronger communities; but child marriage does the contrary. A lack of independent and credible studies on child marriage in Iran, means there is little information and data, but according to the legal adviser of the Iranian Judiciary, the official and state statistics suggest that between 500 to 600 thousand children per year Iran are getting married – and these are only the statistics for marriages that officially registered, without including those outside the formal marriage process. Now, there are around 14,000 child widows in the country, and according to estimates from the United Nations 17 percent of all marriages in Iran are under the age of 18. Further, some men who have more than one spouse in Iran do not register their child marriages, and hide them. This comprehensive research first attempts to analyse the prevalence of child marriage in Iran with an emphasis on socio-cultural factors that reflect the profound and deep-rooted inequalities which have contributed to the persistence of child marriage in Iran. The scientific reason for doing this research is to explain the evidence and prevalence of this traumatic practice in Iran and to assist government decision makers in focusing on the immediate protection of these children’s human rights. This book, as an effort to expose and deepen understandings of the issue of child marriage in Iran, has attracted the attention of civil activists, government policymakers and some parliamentary representatives and MPs. It has provided the background to proposals for raising the minimum age for child marriage, amending Article 1041 of the Civil Code. This proposal was approved by the House of Representatives in an emergency and with a majority of votes, but unanimously rejected by the Majlis Legal and Judicial Commission. As the only fieldwork study these research findings were predicated on producing civil society advocacy and the need for parliament to amend the law. In the community level the research has raised a wave of public awareness leading to a serious civil society demand for a ban on child marriage and raising the age of marriage from 13 to 16 for girls and from 15 to 18 for boys. #early\_child\_marriage #child\_marriage\_in\_Islam #age\_of\_marriage\_in\_Iran #cohabitation\_in\_Iran #white\_marriage #white\_marriage\_in\_Iran #female\_gentle\_mutilation\_or\_cutting #female\_gentle\_mutilation\_in\_iran #female\_gentle\_cutting\_in\_iran #FGM\_in\_Iran #Human\_rights\_in\_Iran #feminization\_and\_poverty\_in\_Iran #divorce\_rates\_in\_Iran #divorce\_laws\_in\_Iran #marriage\_laws\_in\_Iran #virginity\_in\_Iran
