the care and keeping of you pdf: *Start with Why* Simon Sinek, 2011-12-27 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. *START WITH WHY* asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they

understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

the care and keeping of you pdf: The Care Manifesto The Care Collective, Andreas Chatzidakis, Jamie Hakim, Jo Litter, Catherine Rottenberg, 2020-09-22 We are in the midst of a global crisis of care. How do we get out of it? The Care Manifesto puts care at the heart of the debates of our current crisis: from intimate care--childcare, healthcare, elder care--to care for the natural world. We live in a world where carelessness reigns, but it does not have to be this way. The Care Manifesto puts forth a vision for a truly caring world. The authors want to reimagine the role of care in our everyday lives, making it the organising principle in every dimension and at every scale of life. We are all dependent on each other, and only by nurturing these interdependencies can we cultivate a world in which each and every one of us can not only live but thrive. The Care Manifesto demands that we must put care at the heart of the state and the economy. A caring government must promote collective joy, not the satisfaction of individual desire. This means the transformation of how we organise work through co-operatives, localism and nationalisation. It proposes the expansion of our understanding of kinship for a more 'promiscuous care'. It calls for caring places through the reclamation of public space, to make a more convivial city. It sets out an agenda for the environment, most urgent of all, putting care at the centre of our relationship to the natural world.
