umh 707: *They Also Serve* Jane P. Ives, 2020-03-31 Stories from the women and men who have served alongside Methodist and United Methodist bishops. When a bishop is elected in The United Methodist Church, it is not only the one elected who is asked to serve but his or her spouse and family as well. Hear the stories of how Methodist and United Methodist episcopal spouses have adjusted to and navigated this life-changing journey. While dealing with the full range of human experience--births, deaths, relationship struggles, and illness--they also travel the world, participate in mission and ceremonies, meet interesting people, and stand up for justice. Through hardships, celebrations, and everyday struggles, these spouses find their own paths of ministry, answering the calls that are also placed upon their lives. In these ways and many others, they also serve. Praise for *They Also Served* A meticulous labor of love by Jane P. Ives, *They Also Served* remembers faithful unsung Christians by chronicling previously unrecorded details of the spouses of episcopal leaders. Sometimes in the spotlight, often in the shadows, the bishop's spouses struggled

to fulfill unpaid roles and undefined responsibilities in the church, usually far from family and friends. Ives empathetically highlights how these persons, usually without voice or vote, helped shape the church's mission and ministry. - Dr. Donald E. Messer, Executive Director, Central for Health and Hope: Focusing on Global HIV and AIDS, Centennial Colorado. Bishops may ebb and flow in their popularity based on their decisions, but their spouses are almost universally loved and admired. Jane Ives helps readers understand why that is the case with her comprehensive story of the impressive, diverse, and thoroughly dedicated women and men who have contributed so much to God's work. —Lovett H. Weems, Jr., Distinguished Professor of Church Leadership Emeritus, Wesley Theological Seminary, Washington, DC In the gospel of Luke, Jesus sent the disciples out, two by two, to every town, and country, every charge and conference. Ives' book records the wisdom of sending two, and restores the names of those often forgotten in the story of the people called Methodists, the spouses. These are remarkable oral histories as well as timelines of social holiness and global service. This is not a book about survival in ministry and marriage; it's a testimony to those who thrived in their calling. —Heather Murray Elkins, Professor of Worship, Preaching, and the Arts, The Theological School of Drew University, Madison, New Jersey This is a book about discipleship. It is also a book about ministry and itinerancy. It tells stories of how God sometimes calls two people to the work of episcopacy, people who happen to be married to each other. It is a book that will make you laugh and cry! This book is an important addition to the literature of Methodist episcopacy. And it is a hard book to put down! —William Boyd Grove, Bishop (Ret.) of The United Methodist Church Jane Ives has given the Methodist family a priceless treasure. Through an astonishing effort to collect memories and explore archival material, she has compiled a comprehensive record of episcopal spouses, their stories, accomplishments, and contributions to the church. But this book is more than a biographical dictionary. It offers a poignant, insightful account of the lives of bishops, their spouses and families, and the impact of the church's expectations on all of them. As a little boy, I knew firsthand the phone call: get on a train to New Orleans with your sister; your Daddy is going to be a bishop. Allow me to testify, then, that this book is the real deal -- genuine, human, and rich with faith and Spirit. —Thomas E. Frank, Associate Dean for Continuing Studies, Graduate School of Arts and Science, Wake Forest University, Winston-Salem, North Carolina Laity and clergy active in United Methodist life and their spouses will want to immerse themselves in this corporate autobiography, which provides an overview of Methodism through almost 80 years of personal experiences and cultural change. Jane Ives, an episcopal spouse, has amassed here narratives, reports, and communications crafted by her spousal colleagues, living and dead, as well as by those who have known them. For page after page, the reader will relive Methodism's sometimes gradual, sometimes dramatic evolution and its struggles with race, gender, inclusivity, and global relationships. The bishops' spouses have shown great creativity in making the most of their opportunities to be together during Council meetings: sharing ideas, establishing covenant and interest groups, and adjusting their organization to respond to changing needs. Ives has devoted the final third of the book to profiles of the spouses, some quite famous and others whose names are not even known. These vignettes illustrate how different episcopal spouses have lived out their own calling and how they have impacted the church and the world. —Russell E. Richey, Dean Emeritus of Candler School of Theology and William R. Cannon Distinguished Professor of Church History Emeritus, Durham, North Carolina

umh 707: Singing Mary's Song John A. Stroman, 2012-09-01 Soon after the angel Gabriel announced to Mary the astonishing news that she would bear the long-awaited Messiah, Mary went to visit her cousin Elizabeth, who was also expecting a child. As Mary greeted Elizabeth, the child in Elizabeth's womb (John the Baptist) leaped inside her. Elizabeth exclaimed to Mary, God has blessed you among all women. Why do I have this honor, that the mother of my Lord should come to me? Mary responded by singing a song of praise to God, commonly known as the Magnificat. Her song, recorded in Luke 1:46-55, was not a sweet lullaby sung in anticipation of the baby Jesus' birth, Stroman says. Instead, it was a message of deliverance and hope. Mary's song proclaimed deliverance and hope to a dark and fearful world. It continues to bring challenge and hope to us today. *Singing Mary's Song* provides scripture readings, meditations, and prayers for each day of Advent. Each week's readings focus on various lines of Mary's song. Reflection questions are included each week. This Advent study will give you new insight into the life of Mary. Listen closely to Mary's song and discover its message for you today. A great study for individuals or groups!

umh 707: The Suicide Funeral (or Memorial Service) Melinda Moore, Daniel A. Roberts, 2017-05-16 To our knowledge nothing with *The Suicide Funeral (or Memorial Service): Honoring Their Memory, Comforting Their Survivors'* scope and depth has ever been published. This is an aid to anyone who will be called upon to do a funeral for the nearly 43,000 suicides in America each year. This book is designed to assist clergy, chaplains, and other faith leaders as they develop sermons and homilies for a funeral service. Its mandate is to help those searching for inspiration even though they may feel confused or uncertain undertaking such a daunting assignment. Those who plan and lead a funeral service may enable family and friends to understand and participate intentionally in their grief process. Clergy can have a significant impact on how people react to the suicide as well as provide comfort and assistance to those left behind on their journey through grief. Your leadership will influence how the suicide's bereaved are treated by others in the days, weeks, and months following the death. Because suicide does not discriminate by race, socio-economic status, or religion, a broad range of faiths and denominations are represented in this book's

sermons, services, and perspectives.

umh 707: MPLS in the SDN Era Antonio Sanchez Monge, Krzysztof Grzegorz Szarkowicz, 2015-12-07 How can you make multivendor services work smoothly on today's complex networks? This practical book shows you how to deploy a large portfolio of multivendor Multiprotocol Label Switching (MPLS) services on networks, down to the configuration level. You'll learn where Juniper Network's Junos, Cisco's IOS XR, and OpenContrail, interoperate and where they don't. Two network and cloud professionals from Juniper describe how MPLS technologies and applications have rapidly evolved through services and architectures such as Ethernet VPNs, Network Function Virtualization, Seamless MPLS, Egress Protection, External Path Computation, and more. This book contains no vendor bias or corporate messages, just solid information on how to get a multivendor network to function optimally. Topics include: Introduction to MPLS and Software-Defined Networking (SDN) The four MPLS Builders (LDP, RSVP-TE, IGP SPRING, and BGP) Layer 3 unicast and multicast MPLS services, Layer 2 VPN, VPLS, and Ethernet VPN Inter-domain MPLS Services Underlay and overlay architectures: data centers, NVO, and NFV Centralized Traffic Engineering and TE bandwidth reservations Scaling MPLS transport and services Transit fast restoration based on the IGP and RSVP-TE FIB optimization and egress service for fast restoration

umh 707: *Old House Interiors* , 1998 National architectural magazine now in its fifteenth year, covering period-inspired design 1700–1950. Commissioned photographs show real homes, inspired by the past but livable. Historical and interpretive rooms are included; new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising—all of it design-related, no “lifestyle” ads—is as important to them as the articles.

umh 707: *Virus as a Summons to Faith* Walter Brueggemann, 2020-04-30 Why bother with the interpretive categories of biblical faith when in fact our energy and interest are focused on more immediate matters? The answer is simple and obvious. We linger because, in the midst of our immediate preoccupation with our felt jeopardy and our hope for relief, our imagination does indeed range beyond the immediate to larger, deeper wonderments. Our free-ranging imagination is not finally or fully contained in the immediacy of our stress, anxiety, and jeopardy. Beyond these demanding immediacies, we have a deep sense that our life is not fully contained in the cause-and-effect reasoning of the Enlightenment that seeks to explain and control. There is more than that and other than that to our life in God’s world!
