velmma: South Asian Pornographies Darshana Sreedhar Mini, Anirban K. Baishya, 2024-06-21 South Asian Pornographies is the first consolidated volume that explores the relationships between pornography, obscenity, law and desire in South Asia. Focusing on case studies from India, Sri Lanka and Bangladesh while gesturing towards other countries in South Asia, the authors of this volume come from fields as varied as history, literature, media and communication, and the visual arts. The book proposes that as a geo-political location, South Asia has a unique relationship to pornography, given the multiplicity of cultural and legal-censorial regimes that define the obscene and the permissible. South Asian case studies can demonstrate how pornography in the region is often defined in oblique terms, finding reflection in various modes of popular (and sometimes underground) culture, bypassing legal and censorial constraints. Like questions of identity that can only be answered in the plural (identities rather than identity), this book demonstrates how a range of pornographies constitutes the force field of sexualized media in South Asia. It will be of interest to researchers and advanced students of Communication Studies, Cultural Studies, Film Studies, History, Sociology, and Social and Cultural Anthropology. The chapters in this book were originally published in the journal Porn Studies.

This collection brings together the best of Kalki's short stories, which contain some of his most colourful and enduring characters and themes of Tamil popular fiction of the nineteen thirties and forties. There is in these stories the heady urgency of the freedom struggle, the piquant humour of the parodied Tamil gothic and devastating social satire. In her sensitive translations, Gowri Ramnarayan has succeeded in capturing the nuances of the gently mordant wit that made Kalki's stories the highlight of the magazines they were originally published in, creating for themselves a dedicated following that flourishes undiminished to this day. velmma: *Rated A* Darshana Sreedhar Mini, 2024-08-06 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. In the 1990s, India's mediascape saw the efflorescence of edgy soft-porn films in the Malayalam-speaking state of Kerala. In *Rated A*, Darshana Sreedhar Mini

examines the local and transnational influences that shaped Malayalam soft-porn cinema—such as vernacular pulp fiction, illustrated erotic tales, and American exploitation cinema—and maps the genre's circulation among blue-collar workers of the Indian diaspora in the Middle East, where pirated versions circulate alongside low-budget Bangladeshi films and Pakistani mujra dance films as South Asian pornography. Through a mix of archival and ethnographic research, Mini also explores the soft-porn industry's utilization of gendered labor and trust-based arrangements, as well as how actresses and production personnel who are marked by their involvement with a taboo form negotiate their social lives. By locating the tense negotiations between sexuality, import policy, and censorship in contemporary India, this study offers a model for understanding film genres outside of screen space, emphasizing that they constitute not just industrial formations but entire fields of social relations and gendered imaginaries.

velmma: Scroll Paintings of Bengal Amitabh SenGupta, 2012-06-14 The art of vernacular painting in India is not only varied and rich but also intriguing for several reasons. With such observations the book addresses certain issues, like the validity of the historical information on Indian Art that excludes vernacular trends. The information on vernacular art in India has either been ignored such as in ancient literary discourses or inadvertently misconstrued within the theoretical purviews of modern days. If the hierarchy of the Hindu caste system has marginalised the culture of the lower rung groups, the lexicon of twentieth century anthropological studies has seen this art as material evidence of undeveloped societies; both creating the same value: to be patronised but not 'art'. Can art be weighed on a scale of development? Arguments have been developed within the specific focus on scroll paintings by the itinerant painter bards in Bengal. The bardic tradition has been known to exist in India since a pre-Christian era and still continues within two vibrant trends of vernacular art forms - Bangla and Santhal pat. The book redefines and repositions the notion of art with contemporary folk art. As the picture Plates are self-evident, the book draws attention on a world of art that has not been present in Indian Art History.

velmma: *Encyclopaedia of India, Pakistan and Bangladesh* Om Gupta, 2006-04 India, Pakistan and Bangladesh share a long history, an emerging cordial and a common vision for the future. This book is not India-centric but deals with various aspects of all the three sovereign nations. Reading them together will be an unprecedented experience rarely attempted before. It has rarely happened in the modern world, how these three nations who geographically one but culturally so different are chalking out an independent place in the comity of nations at times with the help of each other and at another on its own merit and inherent strength. It is not written from any biased perspective. In fact, it explains people, places and events from a neutral world view. It is ideally an international venture that would benefit historians, teachers and students in the entire sub-continent. It will be interesting to compare the three countries from different parameters, thus planning a wholesome picture. The encyclopedia aims at clearing confusions and contradiction that have crept in because of certain vested interests and it should be read from a neutral benchmark. Similarly, illegal gambling, the bread-and-butter racket inevitably combined with loan-sharking and extortion, is widely tolerated because it is perceived to be a victimless crime. Donald H. Herion, a US Army veteran during the Korean War, who grew up in a neighborhood where there was a bookmaker on every corner, sometimes two or three, learned just how wrong all that was when he returned home from the Army and joined the Chicago Police Department. He wasn't sure that he was doing the right thing at the time because he really never liked cops, but if he didn't like it, he could always quit he thought. After six years learning the ropes in the patrol division collaring burglars and stick up men, chasing daredevil drivers, calming adversaries in domestic disputes, and riding herd on drunks and dope dealers, he was promoted to plainclothes as a vice cop investigating illegal gambling, narcotics, prostitution and gang bangers. He quickly learned that chasing bookmakers and busting up wire-rooms was a fight against organized crime. Illegal gambling was organized crime's biggest money maker, the Golden Calf that financed most of its other illicit activities ranging from stock and bankruptcy swindles to the narcotics trade. Herion and his partner were transferred to the Vice Control Section of the Organized Crime Division at police headquarters at 1121 S. State Street. He now had jurisdiction to make raids anywhere in the City of Chicago instead of only in his district. He was promoted to detective, then sergeant, he rubbed shoulders with degenerate gamblers, bookmakers, prostitutes and stone-cold killers, while witnessing first-hand how gambling destroys lives. He broke up more than 4,000 gambling operations, arrested hundreds of mob controlled bookmakers and other racketeers. Herion also had the pleasure of busting up the mob's biggest floating crap game eight times costing the crime syndicate millions of dollars. To accomplish this it was necessary for him to work on his own time as well as city time. The mob moved the game into the suburbs, which was out of his jurisdiction so Herion worked with Chicago Tribune crime reporter Bob Wiedrich to get the job done. The crap game took every precaution necessary to keep from being discovered. Lookouts with walkie-talkies roved the area where the game was held to warn the operators of the game of any police in the area. One suburb had a local police lieutenant and sergeant as lookouts, the lieutenant who became aware of their presence in the area stuck his gun in their face wanting to know who they were. Herion had used his own car to conduct a surveillance hoped that the lieutenant didn't check his license number. When the reporter explained to the lieutenant that they were watching a crime syndicate crap game going on in a building down the

street and would he like to accompany them on a raid, the lieutenant at this point made an excuse and left the area. This of course caused some heat, but the reporter had already had his story about the game which made headlines in the Chicago Tribune the next day. On another occasion the game began again and was next to a railroad track in another suburban building in Melrose Park, a suburb west of Chicago. There was only one road in and out, lookouts with walkie-talkies were posted everywhere in the area. Herion had his son Don print a sign on plasterboard 4' by 6' with large letters in red paint, CRAP GAME operated by Mob Boss JACKIE CERONE, with an arrow pointing to where the game was being held. Herion nailed the sign on a telephone pole on the road leading to the game. Wi

The volume focuses on urban life lived between home and the world, institutions and experiences, representations and affects.... Its fascinating range of empirically rich and analytically sophisticated excavations of neighbourhoods make the volume a must-have in the bookshelf on South Asian urban studies.' -Gyan Prakash, Princeton University 'A must-read for those who wish to study the micro aspects of contemporary urbanity.' -Sujata Patel, Savitribai Phule Pune University 'This book is a powerful addition to the study of Indian urbanism.' -Ravi Sundaram, Centre for the Study of Developing Societies (CSDS) In the last couple of decades, the global South, in general, and India, in particular, have witnessed a massive growth of cities. In India, more than one-third of its population lives in cities. However, urban development, growth and expansion are not merely about infrastructures and enlargement of cityscapes. This edited volume focuses on neighbourhoods, their particularities and their role in shaping our understanding of the urban in India. It locates Indian experiences in the larger context of the global South and seeks to decentre the dominant Euro-American discourse of urban social life. *Neighbourhoods in Urban India: In Between Home and the City* offers an understanding of neighbourhoods as changing socio-spatial units in their specific regional settings by underlining the way value regimes (religiosity and subjectivities) give neighbourhoods their social meanings and stereotypes. It unpacks discourses and knowledge practices, such as planning, architecture and urban discourses of governance. It further discloses the linkages and disjunctures between the social practices of neighbourhoods and the language, logic and experiences of dwelling, housing, urban planning and governance, and focuses on the particularities and heterogeneities of neighbourhoods and neighbourliness.

velmma: *Hindi Hindu Histories* Charu Gupta, 2024-12-01 What did everyday Hinduism in India look like a hundred years ago? Were its practices more varied and less politically curtailed than now? *Hindi Hindu Histories* provides illuminating historical accounts of Hindu life through individual actors, autobiographical narratives, and genres in the Hindi print-public culture of early twentieth-century North India. It focuses on four fascinating figures: a successful woman doctor in the Indigenous medical regime, a globe-trotting Hindu ascetic who opposed Gandhi, an anticaste campaigner who spoke for sexual equality, and a Hindu communist who envisioned an egalitarian utopia in the world of labor. These public intellectuals harbored vernacular dreams of freedom and Hindi-Hindu nationhood through their vantage points of caste, Ayurveda, travel, and communism. Opening up a vast and under-explored Hindi archive, this book presents a dynamic spectacle of a

plural Hindi-Hindu universe of facets that coexisted, challenged each other, and comprised an idea of Hinduness far more inclusive than anything conceivable in the present moment.
