vocabulary workshop level orange: Dare to Lead Brené Brown, 2018-10-09 #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better?

Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

vocabulary workshop level orange: The Orange Slipknot Curriculum Unit Young Jan, 2008 The questions and activities in this Curriculum Unit for teaching from the middle-grade novel, The Orange Slipknot, have been designed to help the teacher guide students in learning and incorporating these important reading strategies: making connections, questioning, visualizing, inferring, determining importance, and synthesizing. Instead of reading for content only, students will learn how to look beyond the words for meaning. They will learn to see that there are many layers of meaning in books. They will learn how to think about reading, and hopefully, to develop a love for reading. For each chapter, there are comprehension questions, writing prompts, discussions prompts, journaling prompts, and vocabulary activities. Various question/answer formats are used, with an emphasis on writing. Following the chapter activities, there are strong cross-curricular connections: literature links, reading, math, science, art, social studies, and geography. Questions and activities range from fourth to ninth grade levels. Extensive use is made of internet research. A teacher may wish to pick and choose from the large selection of questions and activities. Answer keys are in the back. The in-depth section on Nevada, stressing agriculture, makes The Orange Slipknot an excellent social studies tool. Since this Curriculum Unit is written by the author herself, the teacher and the students benefit by gaining insight into the writer's mind. The elements which the author feels are important about the story and the writing process are emphasized.
