In Angel Numbers, world-renowned angel author Kyle Gray explains exactly what your angels and spirit guides are trying to tell you through repeated number sequences you see. In this day and age, our understanding of the cosmos is all calculated using numbers, so it's no wonder that angels, the universe's greatest divine messengers since the dawn of time, are using numbers to send us signs and messages from heaven. There's a good chance you have seen number sequences appearing time and time again in your life—on license plates, purchase receipts, flight numbers and of course your phone—and these numbers aren't just numbers, they're angel numbers. They are angel messages and calls to action. Now that we are living in what can only be described as

angel numbers 101 by doreen virtue: Madame Clairevoyant's Guide to the Stars Claire Comstock-Gay, 2020-04-21 A fresh, profound, and fun way to look at all things astro while also making spot-on observations about your pop culture faves. —Cosmopolitan A soulful exploration of the twelve astrological signs embodied by our living "stars"—from divas to philosophers, poets to punks—and the ways they can help us better understand ourselves and each other, from the wildly popular astrology columnist for New York magazine's The Cut. Whether you believe in it or not, astrology's job has never been to give us a preordained vision of the future, nor to sort us into twelve neat personality types, but to provide the tools and language for delving into our weirdest, best, most thorny contradictions, and for understanding ourselves and each other in our full complexity. The stars and the planets then are more like mirrors that show us who we are, that give us an understanding of how to be and how to move through the world; how certain people do it differently, and what we can learn by studying them. In Madame Clairevoyant's Guide to the Stars, Claire Comstock-Gay brings the sky down to Earth and points to our popular "stars"—from Aretha Franklin to Mr. Rogers, from poets in Cancer to punk singers in Scorpio—to reveal what the sky has to teach us about being human. In this wise, lyrically written guide, she examines the twelve astrological signs, illuminating the ways each one is more complicated, beautiful, and surprising than you might have been told. Claire suggests that actually it's okay, and even important, to be a seeker, to hunger for self-knowledge, and if astrology is the vehicle for that inquiry, so be it. Madame Clairevoyant's Guide to the Stars offers a clear introduction to the basics and an innovative new framework for creatively using astrology to illuminate our lives on earth. It's a road map to our internal world, yes, but Claire also reminds us that it's still our job to navigate it. Combining both heavenly insights and the earthly wisdom of writers like Cheryl Strayed and Heather Havrilesky and the poetry of Patricia Lockwood and Mary Oliver, Madame Clairevoyant's Guide to the Stars offers a fresh, profound, and fun way to look at ourselves and others, and perhaps see each more clearly. And in that way, this

book is not just beautiful, but transformative.

angel numbers 101 by doreen virtue: Earth Angels Doreen Virtue, 2002-09-30
In the same way that The Indigo Children was a phenomenon that was much talked-about, before the book came out and explained it, Earth Angels is a topic of much discussion among spiritually minded people world-wide. Four years ago, Doreen Virtue wrote an article on the topic, and then a chapter in her

book, *Healing with the Angels*, and then more information in *Healing with the Fairies*. Since that time, Doreen has been flooded with letters from people who resonate with the idea, requesting more information. *Earth Angels* will be the first book devoted to the topic. Doreen will describe the five different types of lightworkers: Incarnated Angels (those who had previous lives as angels, but who are now here as humans); Incarnated Elementals (those whose previous lives were in the elemental kingdom, as fairies, elves, etc.); Starpeople (those who have lived the majority of their past lives on other planets); Walk-In's (those who came from a high spiritual realm and walked-in to another person's life, as that soul gladly exited their body); and Reincarnated Sorcerers, Sorceresses, and Wizards (those whose most recent past life was during Arthurian or Atlantian times, when they practiced high magic). The book will include dozens of case studies; a fascinating analysis of an extensive survey that Doreen has conducted among people who identify with the five types of Earth Angels; and guidance to help readers to feel happier about their lives, their own idiosyncrasies, and their missions.

The Ancient Hermetic Secrets to Alchemy and Divine Magic Revealed! You have natural magical abilities that can elevate your life to a whole new level, as well as heal and help your loved ones and clients. The original teacher of this Divine magic was an Egyptian sage named Hermes Trismegistus. His teachings, called Hermetics, were only taught verbally or in very cryptic writings. In 1908, three Hermetic students recorded them in a book called *The Kybalion*. Yet this work was still difficult to understand because of its archaic and confusing language. Now, in *Divine Magic*, Doreen Virtue presents a clear, edited version of *The Kybalion*, written in understandable and modern language while retaining all of the original teachings. She gives comments and practical suggestions based upon her own success in using Hermetic teachings for healing and manifestation. With *Divine Magic*, you can master your moods, release negativity, manifest new levels of abundance, and attract wonderful opportunities in all areas of your life.
