writer s market pdf: Reformers, Teachers, Writers Neal Lerner, 2019-07-03 In Reformers, Teachers, Writers, Neal Lerner explores the distinction between curriculum and pedagogy in writing studies—and the ways in which failing to attend to that distinction results in the failure of educational reform. Lerner's mixed-methods approach—quantitative, qualitative, textual, historical, narrative, and theoretical—reflects the importance and effects of curriculum in a wide variety of settings, whether in writing centers, writing classrooms, or students' out-of-school lives, as well as the many methodological approaches available to understand curriculum in writing studies. The richness of this approach allows for multiple considerations of the distinction and relationship between pedagogy and curriculum. Chapters are grouped into three parts: disciplinary inquiries, experiential inquiries, and empirical inquiries, exploring the presence and effect of curriculum and its relationship to pedagogy in multiple sites, both historical and contemporary, and for multiple stakeholders. Reformers, Teachers, Writers calls out writing studies' inattention to curriculum,

which hampers efforts to enact meaningful reform and to have an impact on larger conversations about education and writing. The book will be invaluable to scholars, teachers, and administrators interested in rhetoric and composition, writing studies, and education.

writer s market pdf: Publishing Contracts and the Post Negotiation Space Katherine Day, 2023-03-23 Many writers dream of having their work published by a respected publishing house, but don't always understand publishing contract terms - what they mean for the contracting parties and how they inform book-publishing practice. In turn, publishers struggle to satisfy authors' creative expectations against the industry's commercial demands. This book challenges our perceptions of these author-publisher power imbalances by recasting the publishing contract as a cultural artefact capable of adapting to the industry's changing landscape. Based on a three-year study of publishing negotiations, Katherine Day reveals how relational contract theory provides possibilities for future negotiations in what she describes as a 'post negotiation space'. Drawing on the disciplines of cultural studies, law, publishing studies and cultural sociology, this book reveals a unique perspective from publishing professionals and authors within the post negotiation space, presenting the editor as a fundamental agent in the formation and application of publishing's contractual terms.
