Planning and Organizing the Black Church Women's Day Program

Effective planning is crucial to the success of any black church women's day program. Church leadership typically forms a dedicated committee responsible for coordinating all aspects of the event. This team handles scheduling, budgeting, selecting themes, inviting speakers, and organizing logistics. Planning often begins several months in advance to ensure ample preparation time for all participants. Consideration is given to including diverse voices and talents from within the congregation and the broader community to enrich the program's content. Proper organization also involves coordinating with other church ministries, such as the music department and hospitality teams, to create a seamless and memorable experience.

Committee Formation and Roles

The organizing committee usually consists of women leaders and volunteers who bring different skills to the table. Roles within the committee often include a chairperson, program coordinator, publicity

chair, finance manager, and hospitality coordinator. Each member's responsibilities are clearly defined to maintain efficiency and accountability throughout the planning process.

Scheduling and Venue Selection

Choosing an appropriate date and venue is integral to maximizing attendance and participation. black church women s day program: The Black Church Henry Louis Gates, Jr., 2021-02-16
The instant New York Times bestseller and companion book to the PBS series. "Absolutely brilliant . . . A necessary and moving work." —Eddie S. Glaude, Jr., author of *Begin Again* "Engaging. . . . In Gates's telling, the Black church shines bright even as the nation itself moves uncertainly through the gloaming, seeking justice on earth—as it is in heaven." —Jon Meacham, *New York Times Book Review* From the New York Times bestselling author of *Stony the Road* and *The Black Box*, and one of our most important voices on the African American experience, comes a powerful new history of the Black church as a foundation of Black life and a driving force in the larger freedom struggle in America. For the young Henry Louis Gates, Jr., growing up in a small, residentially segregated West Virginia town, the church was a center of gravity—an intimate place where voices rose up in song and neighbors gathered to celebrate life's blessings and offer comfort amid its trials and tribulations. In this tender and expansive reckoning with the meaning of the Black Church in America, Gates takes us on a journey spanning more than five centuries, from the intersection of Christianity and the transatlantic slave trade to today's political landscape. At road's end, and after Gates's distinctive meditation on the churches of his childhood, we emerge with a new understanding of the importance of African American religion to the larger national narrative—as a center of resistance to slavery and white supremacy, as a magnet for political mobilization, as an incubator of musical and oratorical talent that would transform the culture, and as a crucible for working through the Black community's most critical personal and social issues. In a country that has historically afforded its citizens from the African diaspora tragically few safe spaces, the Black Church has always been more than a sanctuary. This fact was never lost on white supremacists: from the earliest days of slavery, when enslaved people were allowed to worship at all, their meetinghouses were subject to surveillance and destruction. Long after slavery's formal eradication, church burnings and bombings by anti-Black racists continued, a hallmark of the violent effort to suppress the African American struggle for equality. The past often isn't even past—Dylann Roof committed his slaughter in the Mother Emanuel AME Church 193 years after it was first burned down by white citizens of Charleston, South Carolina, following a thwarted slave rebellion. But as Gates brilliantly shows, the Black church has never been only one thing. Its story lies at the heart of the Black political struggle, and it has produced many of the Black community's most notable leaders. At the same time, some churches and denominations have eschewed political engagement and exemplified practices of exclusion and intolerance that have caused polarization and pain. Those tensions remain today, as a rising generation demands freedom and dignity for all within and beyond their communities, regardless of race, sex, or gender. Still, as a source of faith and refuge, spiritual sustenance and struggle against society's darkest forces, the Black Church has been central, as this enthralling history makes vividly clear.

Based on the African American Women's Voices Project, *Shifting* reveals that a large number of Black women feel pressure to compromise their true selves as they navigate America's racial and gender bigotry. Black women shift by altering the expectations they have for themselves or their outer appearance. They modify their speech. They shift white as they head to work in the morning and Black as they come back home each night. They shift inward, internalizing the searing pain of the negative stereotypes that they encounter daily. And sometimes they shift by fighting back. In commemoration of its twentieth year in print with a new Introduction and updated content throughout *Shifting* is a much-needed, clear, and comprehensive portrait of the reality of Black women's lives today.

black church women s day program: Envisioning Freedom Cara Caddoo, 2014-10-13 Viewing turn-of-the-century African American history through the lens of cinema, *Envisioning Freedom* examines the forgotten history of early black film exhibition during the era of mass migration and Jim Crow. By embracing the new medium of moving pictures at the turn of the twentieth century, black Americans forged a collective—if fraught—culture of freedom. In Cara Caddoo's perspective-changing study, African Americans emerge as pioneers of cinema from the 1890s to the 1920s. Across the South and Midwest, moving pictures presented in churches, lodges, and schools raised money and created shared social experiences for black urban communities. As migrants moved northward, bound for Chicago and New York, cinema moved with them. Along these routes, ministers and reformers, preaching messages of racial uplift, used moving pictures as an enticement to attract followers. But as it gained popularity, black cinema also became controversial. Facing a losing competition with movie houses, once-supportive ministers denounced the evils of the "colored theater." Onscreen images sparked arguments over black identity and the meaning of freedom. In 1910, when boxing champion Jack Johnson became the world's first black movie star, representation in film vaulted to the center of black concerns about racial progress. Black leaders demanded self-representation and an end to cinematic mischaracterizations which, they charged, violated the civil rights of African Americans. In 1915, these ideas both led to the creation of an industry that produced "race films" by and for black audiences and sparked the first mass black protest movement of the twentieth century.

black church women s day program: Down by the Riverside Larry Murphy, Larry George Murphy, 2000-11 An introductory overview of the development of African American religion and theology Down by the Riverside provides an expansive introduction to the development of African American religion and theology. Spanning the time of slavery up to the present, the volume moves beyond Protestant Christianity to address a broad diversity of African American religion from Conjure, Orisa, and Black Judaism to Islam, African American Catholicism, and humanism. This accessible historical overview begins with African religious heritages and traces the transition to various forms of Christianity, as well as the maintenance of African and Islamic traditions in antebellum America. Preeminent contributors include Charles Long, Gayraud Wilmore, Albert Raboteau, Manning Marable, M. Shawn Copeland, Vincent Harding, Mary Sawyer, Toinette Eugene, Anthony Pinn, and C. Eric Lincoln and Lawrence Mamiya. They consider the varieties of religious expression emerging from migration from the rural South to urban areas, African American women's participation in Christian missions, Black religious nationalism, and the development of Black Theology from its nineteenth-century precursors to its formulation by James Cone and later articulations by black feminist and womanist theologians. They also draw on case studies to provide a profile of the Black Christian church today. This thematic history of the unfolding of religious life in African America provides a window onto a rich array of African American people, practices, and theological positions.

black church women s day program: Take Up the Black Man's Burden Charles Edward Coulter, 2006 Unlike many cities farther north, Kansas City, Missouri-along with its sister city in Kansas-had a significant African American population by the midnineteenth century and also served as a way station for those migrating north or west. Take Up the Black Man's Burden focuses on the people and institutions that shaped the city's black communities from the end of the Civil War until the outbreak of World War II, blending rich historical research with first-person accounts that allow participants in this historical drama to tell their own stories of struggle and accomplishment. Charles E. Coulter opens up the world of the African American community in its formative years, making creative use of such sources as census data, black newspapers, and Urban League records. His account covers social interaction, employment, cultural institutions, housing, and everyday lives within the context of Kansas City's overall development, placing a special emphasis on the years 1919 to 1939 to probe the harsh reality of the Depression for Kansas City blacks-a time when many of the community's major players also rose to prominence. Take Up the Black Man's Burden is a rich testament not only of high-profile individuals such as publisher Chester A. Franklin, activists Ida M. Becks and Josephine Silone Yates, and state legislator L. Amasa Knox but also of ordinary laborers in the stockyards, domestics in white homes, and railroad porters. It tells how various elements of the population worked together to build schools, churches, social clubs, hospitals, the Paseo YMCA/YWCA, and other institutions that made African American life richer. It also documents the place of jazz and baseball, for which the community was so well known, as well as movie houses,

amusement parks, and other forms of leisure. While recognizing that segregation and discrimination shaped their reality, Coulter moves beyond race relations to emphasize the enabling aspects of African Americans' lives and show how people defined and created their world. As the first extensive treatment of black history in Kansas City, *Take Up the Black Man's Burden* is an exceptional account of minority achievement in America's crossroads. By showing how African Americans saw themselves in their own world, it gives readers a genuine feel for the richness of black life during the interwar years of the twentieth century.

black church women s day program: *New Day Begun* R. Drew Smith, 2003-07-02 *New Day Begun* presents the findings of the first major research project on black churches' civic involvement since C. Eric Lincoln and Lawrence H. Mamiya's landmark study *The Black Church in the African American Experience*. Since the passage of the 1964 Civil Rights Act and the 1965 Voting Rights Act, the scale and scope of African American churches' civic involvement have changed significantly: the number of African American clergy serving in elective and appointive offices has noticeably increased, as have joint efforts by black churches and government agencies to implement policies and programs. Filling a vacuum in knowledge about these important developments, *New Day Begun* assesses the social, political, and ecclesiastical factors that have shaped black church responses to American civic and political life since the Civil Rights movement. This collection of essays analyzes the results of an unprecedented survey of nearly 2,000 African American churches across the country conducted by The Public Influences of African-American Churches Project, which is based at Morehouse College in Atlanta. These essays—by political scientists, theologians, ethicists, and others—draw on the survey findings to analyze the social, historical, and institutional contexts of black church activism and to consider the theological and moral imperatives that have shaped black church approaches to civic life—including black civil religion and womanist and afrocentric critiques. They also look at a host of faith-based initiatives addressing economic development and the provision of social services. *New Day Begun* presents necessary new interpretations of how black churches have changed—and been changed by—contemporary American political culture. black church women s day program: *The Labor of Faith* Judith Casselberry, 2017-04-27 *The Labor of Faith* Judith Casselberry examines the material and spiritual labor of the women of the Church of Our Lord Jesus Christ of the Apostolic Faith, Inc., which is based in Harlem and one of the oldest and largest historically Black Pentecostal denominations in the United States. This male-headed church only functions through the work of the church's women, who, despite making up three-quarters of its adult membership, hold no formal positions of power. Casselberry shows how the women negotiate this contradiction by using their work to produce and claim a spiritual authority that provides them with a particular form of power. She also emphasizes how their work in the church is as significant, labor intensive, and critical to their personhood, family, and community as their careers, home and family work, and community service are. Focusing on the circumstances of producing a holy black female personhood, Casselberry reveals the ways twenty-first-century women's spiritual power operates and resonates with meaning in Pentecostal, female-majority, male-led churches.

The Family, Culture, and Religion series offers informed and responsible analyses of the state of the American family from a religious perspective and provides practical assistance for the family's revitalization.

black church women s day program: *American Congregations, Volume 1* James P. Wind,

James W. Lewis, 1994 The congregation is a distinctly American religious structure, and is often overlooked in traditional studies of religion. But one cannot understand American religion without understanding the congregation. Volume 1: Portraits of Twelve Religious Communities chronicles the founding, growth, and development of congregations that represent the diverse and complex reality of American local religious cultures. The contributors explore multiple issues, from the fate of American Protestantism to the rise of charismatic revivalism. Volume 2: New Perspectives in the Study of Congregations builds upon those historical studies, and addresses three crucial questions: Where is the congregation located on the broader map of American cultural and religious life? What are congregations' distinctive qualities, tasks, and roles in American culture? And, what patterns of leadership characterize congregations in America?

black church women s day program: Righteous Discontent Evelyn Brooks Higginbotham, 1994-03-15 What Du Bois noted has gone largely unstudied until now. In this book, Evelyn Brooks Higginbotham gives us our first full account of the crucial role of black women in making the church a powerful institution for social and political change in the black community. Between 1880 and 1920, the black church served as the most effective vehicle by which men and women alike, pushed down by racism and poverty, regrouped and rallied against emotional and physical defeat. Focusing on the National Baptist Convention, the largest religious movement among black Americans, Higginbotham shows us how women were largely responsible for making the church a force for self-help in the black community. In her account, we see how the efforts of women enabled the church to build schools, provide food and clothing to the poor, and offer a host of social welfare services. And we observe the challenges of black women to patriarchal theology. Class, race, and gender dynamics continually interact in Higginbotham's nuanced history. She depicts the cooperation, tension, and negotiation that characterized the relationship between men and women church leaders as well as the interaction of southern black and northern white women's groups. Higginbotham's history is at once tough-minded and engaging. It portrays the lives of individuals within this movement as lucidly as it delineates feminist thinking and racial politics. She addresses the role of black Baptist women in contesting racism and sexism through a "politics of respectability" and in demanding civil rights, voting rights, equal employment, and educational opportunities. Righteous Discontent finally assigns women their rightful place in the story of political and social activism in the black church. It is central to an understanding of African American social and cultural life and a critical chapter in the history of religion in America.

black church women s day program: My Soul Look Back in Wonder Geneva Napoleon Smitherman, 2022-01-31 This is the story of Dr. Geneva Smitherman, aka Dr. G, the pioneering linguist often referred to as the Queen of Black Language. In a series of narrative essays, Dr. G writes eloquently and powerfully about the role of language in social transformation and the academic, intellectual, linguistic, and societal debates that shaped her groundbreaking work as a Black Studies O.G. and a Womanist scholar-activist of African American Language. These eleven essays narrate the development of Dr. G's race, gender, class, and linguistic consciousness as a member of the Black Power Generation of the 1960s and 70s. In My Soul Look Back In Wonder, Dr. G links the personal to the professional and the political, situating the struggles, and successes, of a Black woman in the Academy within the historical experiences and development of her people. As Dr. G enters her eighth decade, in this Black Lives Matter historical moment, she seeks to share the meaning and purpose of a life of study and struggle and its significance for all those who seek racial and social justice today.

Farmer, Evelyn Shepherd-Wynn, 2012-05-15 The stories of black American professionals, both historic and contemporary, reveal the hardships and triumphs they faced in overcoming racism to succeed in their chosen fields. This extraordinary four-volume work is the first of its kind, a comprehensive exploration of the obstacles black men and women, both historic and contemporary, have faced and overcome to succeed in professional positions. *Voices of Historical and Contemporary Black American Pioneers* includes the life and career histories of black American pioneers, past and present, who have achieved extraordinary success in fields as varied as aviation and astronautics, education, social sciences, the humanities, the fine and performing arts, law and government, and medicine and science. The set covers well-known figures, but is also an invaluable source of information on lesser-known individuals whose accomplishments are no less admirable. Arranged by career category, each section of the work begins with a biographical narrative of early black pioneers in the field, followed by original interviews conducted by the editors or autobiographical narratives written by the subjects. In all, more than 150 scholars and professionals share inspiring insights into how they persevered to overcome racism and succeed in an often-hostile world.

black church women s day program: Black Religion and Aesthetics A. Pinn, 2009-07-06 A great deal of attention has been given to the sociopolitical and theological importance of Black Religion. However, of less academic concern up to this point is the aesthetic qualities that define much of what is said and done within the context of Black Religion. Recognizing the centrality of the black body for black religious thought and life, this book proposes a conversation concerning various dimensions of the aesthetic considerations and qualities of Black Religion as found in various parts of the world, including the Americas, the Caribbean, Africa, and Europe. In this respect, Black Religion is simply meant to connote the religious orientations and arrangements of people of African descent across the globe.

black church women s day program: The Black Church in the African American Experience C. Eric Lincoln, Lawrence H. Mamiya, 1990-11-07 Black churches in America have long been recognized as the most independent, stable, and dominant institutions in black communities. In *The Black Church in the African American Experience*, based on a ten-year study, is the largest nongovernmental study of urban and rural churches ever undertaken and the first major field study on the subject since the 1930s. Drawing on interviews with more than 1,800 black clergy in both urban and rural settings, combined with a comprehensive historical overview of seven mainline black denominations, C. Eric Lincoln and Lawrence H. Mamiya present an analysis of the Black Church as it relates to the history of African Americans and to contemporary black culture. In examining both the internal structure of the Church and the reactions of the Church to external, societal changes, the authors provide important insights into the Church's relationship to politics, economics, women, youth, and music. Among other topics, Lincoln and Mamiya discuss the attitude of the clergy toward women pastors, the reaction of the Church to the civil rights movement, the attempts of the Church to involve young people, the impact of the black consciousness movement and Black Liberation Theology and clergy, and trends that will define the Black Church well into the next century. This study is complete with a comprehensive bibliography of literature on the black experience in religion. Funding for the ten-year survey was made possible by the Lilly Endowment and the Ford Foundation.

black church women s day program: Fruit and Vegetables IARC Working Group on the Evaluation of Cancer-Preventive Strategies, 2003 This handbook shows that approximately one in ten cancers in western populations is due to an insufficient intake of fruit and vegetables, a finding that should encourage all organizations as well as governments to continue efforts to increase or

maintain fruit and vegetable intake as an important objective of programs to improve nutrition to reduce the burden of cancer and other chronic diseases. The clearest evidence of a cancer-protective effect of eating more fruits is for stomach and esophageal cancers. Similarly, a higher intake of vegetables probably reduces the incidence of cancer of esophagus and colon-rectum. Fruit and vegetables contain many nutrients; they also contain other bioactive compounds that may influence many aspects of human biology and related disease processes.

black church women s day program: In My Grandmother's House Yolanda Pierce, 2021-02-16 What if the most steadfast faith you'll ever encounter comes from a Black grandmother? The church mothers who raised Yolanda Pierce, dean of Howard University School of Divinity, were busily focused on her survival. In a world hostile to Black women's bodies and spirits, they had to be. Born on a former cotton plantation and having fled the terrors of the South, Pierce's grandmother raised her in the faith inherited from those who were enslaved. Now, in the pages of *In My Grandmother's House*, Pierce reckons with that tradition, building an everyday womanist theology rooted in liberating scriptures, experiences in the Black church, and truths from Black women's lives. Pierce tells stories that center the experiences of those living on the underside of history, teasing out the tensions of race, spirituality, trauma, freedom, resistance, and memory. A grandmother's theology carries wisdom strong enough for future generations. The Divine has been showing up at the kitchen tables of Black women for a long time. It's time to get to know that God.

black church women s day program: African-American Holiness Pentecostal Movement Sherry S. DuPree, 2013-09-13 First Published in 1996. She has persisted, with the results detailed here. A huge number of items are available to inform us about Holiness, Pentecostal, and Charismatic congregations and organizations in the African-American Christian community.

black church women s day program: The Collective Spirit of Aging Across Cultures Halaevalu F. Ofahengaue Vakalahi, Gaynell M. Simpson, Nancy Giunta, 2014-01-28 The collective, inclusive, and intersectional framework used in this book speaks to the significance of understanding aging across diverse cultures from multiple perspectives, but still as a shared human experience. The underlying message of the book is that although we are unique and different in our aging processes, we are ultimately connected through this physical, mental and spiritual experience of aging. Thus, regardless of whether we are service providers, service recipients, educators or merely fellow human beings, it is important that we approach the aging experience through a collective lens for discovering and sharing resources as we age; honoring the past while simultaneously accepting that the future is here. A few select examples of key findings from this collaborative work are as follows. First, despite progress in the field, certain issues remain to be addressed including the challenges of racism and sexism, mistreatment, the digital divide, poverty, and other social and economic crises in urban and rural communities as they relate to our aging population. Second, the need for sustaining a sense of independence among the aged and interdependence among supportive systems is warranted. Third, our elders continue to benefit from culturally competent services community-based health interventions and social services that addresses normative and emerging challenges for them. Fourth, spirituality in both indigenous and contemporary perspectives remains important for our elders' development and quality of life.

Barnes, Anne Streaty Wimberly, 2016-06-10 Informed by the experiences of 772 Black churches, this book relies on a multidisciplinary, mixed-methodological lens to examine how today's Black churches address the religious and non-religious educational and broader socialization needs of youth. Drawing from a cultural and ecological framework of village-mindedness, Barnes and Wimberly examine the intersected nature of place, space, and race to propel a conversation about whether and

how the Black Church can become a more relevant and empowering presence for youth and the Black community.

black church women s day program: Freedom Faith Courtney Pace, 2019-06-15 Freedom Faith is the first full-length critical study of Rev. Dr. Prathia Laura Ann Hall (1940-2002), an undersung leader in both the civil rights movement and African American theology. Freedom faith was the central concept of Hall's theology: the belief that God created humans to be free and assists and equips those who work for freedom. Hall rooted her work simultaneously in social justice, Christian practice, and womanist thought. Courtney Pace examines Hall's life and philosophy, particularly through the lens of her civil rights activism, her teaching career, and her ministry as a womanist preacher. Moving along the trajectory of Hall's life and civic service, Freedom Faith focuses on her intellectual and theological development and her radiating influence on such figures as Dr. Martin Luther King Jr., Marian Wright Edelman, and the early generations of womanist scholars. Hall was one of the first women ordained in the American Baptist Churches, USA, was the pastor of Mt. Sharon Baptist Church in Philadelphia, and in later life joined the faculty at the Boston University School of Theology as the Martin Luther King Chair in Social Ethics. In activism and ministry, Hall was a pioneer, fusing womanist thought with Christian ethics and visions of social justice.

black church women s day program: The Black Church Studies Reader Alton B. Pollard, Carol B. Duncan, 2016-04-29 The Black Church Studies Reader addresses the depth and breadth of Black theological studies, from Biblical studies and ethics to homiletics and pastoral care. The book examines salient themes of social and religious significance such as gender, sexuality, race, social class, health care, and public policy. While the volume centers around African American experiences and studies, it also attends to broader African continental and Diasporan religious contexts. The contributors reflect an interdisciplinary blend of Black Church Studies scholars and practitioners from across the country. The text seeks to address the following fundamental questions: What constitutes Black Church Studies as a discipline or field of study? What is the significance of Black Church Studies for theological education? What is the relationship between Black Church Studies and the broader academic study of Black religions? What is the relationship between Black Church Studies and local congregations (as well as other faith-based entities)? The book's search for the answers to these questions is compelling and illuminating.

black church women s day program: Pauline Elizabeth Hopkins Lois Brown, 2012-07-01 Born into an educated free black family in Portland, Maine, Pauline Elizabeth Hopkins (1859-1930) was a pioneering playwright, journalist, novelist, feminist, and public intellectual, best known for her 1900 novel *Contending Forces: A Romance of Negro Life North and South*. In this critical biography, Lois Brown documents for the first time Hopkins's early family life and her ancestral connections to eighteenth-century New England, the African slave trade, and twentieth-century race activism in the North. Brown includes detailed descriptions of Hopkins's earliest known performances as a singer and actress; textual analysis of her major and minor literary works; information about her most influential mentors, colleagues, and professional affiliations; and details of her battles with Booker T. Washington, which ultimately led to her professional demise as a journalist. Richly grounded in archival sources, Brown's work offers a definitive study that clarifies a number of inconsistencies in earlier writing about Hopkins. Brown re-creates the life of a remarkable woman in the context of her times, revealing Hopkins as the descendant of a family comprising many distinguished individuals, an active participant and supporter of the arts, a woman of stature among professional peers and clubwomen, and a gracious and outspoken crusader for African American rights.
