captain america the winter soldier script: Ed Brubaker Terrence R. Wandtke, 2016-03-04 Ed Brubaker (b. 1966) has emerged as one of the most popular, significant figures in art comics since the 1990s. Most famous as the man who killed Captain America in 2007, Brubaker's work on company-owned properties such as Batman and Captain America and creator-owned series like Criminal and Fatale live up to the usual expectations for the superhero and crime genres. And yet, Brubaker layers his stories with a keen self-awareness, applying his expansive knowledge of American comic book history to invigorate his work and challenge the dividing line between popular entertainment and high art. This collection of interviews explores the sophisticated artist's work, drawing upon the entire length of the award-winning Brubaker's career. With his stints writing Catwoman, Gotham Central, and Daredevil, Brubaker advanced the work of crime comic book writers through superhero stories informed by hard-boiled detective fiction and film noir. During his time on Captain America and his series Sleeper and Incognito, Brubaker revisited the conventions of the espionage thriller. With double agents who lose themselves in their jobs, the stories expose the arbitrary superhero standards of good and evil. In his series Criminal, Brubaker offered complex crime stories and, with a clear sense of the complicated lost world before the Comics Code, rejected crusading critic Fredric Wertham's myth of the innocence of early comics. Overall, Brubaker demonstrates his self-conscious methodology in these often little-known and hard-to-find interviews, worthwhile conversations in their own right as well as objects of study for both scholars and researchers.

captain america the winter soldier script: You Are What You Watch Walter Hickey, 2023-10-24 Pulitzer Prize-winning author and data expert Walt Hickey explains the power of entertainment to change our biology, our beliefs, how we see ourselves, and how nations gain power. Virtually anyone who has ever watched a profound movie, a powerful TV show, or read a moving novel understands that entertainment can and does affect us in surprising and significant ways. But did you know that our most popular forms of entertainment can have a direct physical effect on us, a measurable impact on society, geopolitics, the economy, and even the future itself? In You Are What You Watch, Walter Hickey, Pulitzer Prize winner and former chief culture writer at acclaimed data site FiveThirtyEight.com, proves how exactly how what we watch (and read and listen to) has a far greater effect on us and the world at large than we imagine. Employing a mix of research, deep reporting, and 100 data visualizations, Hickey presents the true power of entertainment and culture. From the decrease in shark populations after Jaws to the increase in women and girls taking up archery following The Hunger Games, You Are What You Watch proves its points not just with research and argument, but hard data. Did you know, for example, that crime statistics prove that violent movies actually lead to less real-world violence? And that the international rise of anime and Manga helped lift the Japanese economy out of the doldrums in the 1980s? Or that British and American intelligence agencies actually got ideas from the James Bond movies? In You Are What You Watch, readers will be given a nerdy, and sobering, celebration of popular entertainment and its surprising power to change the world.
