daily commitment report peoria il 2021: Reinventing Food Banks and Pantries Katie S. Martin, 2021-03-09 In the US, there is a wide-ranging network of at least 370 food banks, and more than 60,000 hunger-relief organizations such as food pantries and meal programs. These groups provide billions of meals a year to people in need. And yet hunger still affects one in nine Americans. What are we doing wrong? In *Reinventing Food Banks and Pantries*, Katie Martin argues that if handing out more and more food was the answer, we would have solved the problem of hunger decades ago. Martin instead presents a new model for charitable food, one where success is measured not by pounds of food distributed but by lives changed. The key is to focus on the root causes of hunger. When we shift our attention to strategies that build empathy, equity, and political will, we can implement real solutions. Martin shares those solutions in a warm, engaging style, with simple steps that anyone working or volunteering at a food bank or pantry can take today. Some are short-term strategies to create a more dignified experience for food pantry clients: providing client choice, where individuals select their own food, or redesigning a waiting room with better seating and a designated greeter. Some are longer-term: increasing the supply of healthy food, offering job training programs, or connecting clients to other social services. And some are big picture: joining the fight for living wages and a stronger social safety net. These strategies are illustrated through inspiring success stories and backed up by scientific research. Throughout, readers will find a wealth of proven ideas to make their charitable food organizations more empathetic and more effective. As Martin writes, it takes more than food to end hunger. Picking up this insightful, lively book is a great first step.

Walt Disney's *Snow White and the Seven Dwarfs* was first shown to a theatrical audience in December 1937 and brought overwhelming, joyous applause from a house full of hardened film-industry professionals. In subsequent months it would open around the world, happily acclaimed by audiences and critics everywhere as one of the best films of the year, if not the decade. From today's perspective, its stature is even greater—named as one of the best movies of all time by the American Film Institute, and still beloved by children and adults around the world, *Snow White* can be seen as the flowering of an all-too-brief Golden Age of animation as well as a fascinating document of its time. Such a level of artistic achievement doesn't happen by accident. Walt Disney and a staff of exceptionally talented artists labored over *Snow White* for four years, endlessly working and reworking their scenes to achieve an ever higher standard. The result, as we know, was magnificent and game-changing for the Disney Studios and, indeed, for the art of animation itself. This book is the first to reconstruct that process in exacting detail, with the loving attention it deserves from an internationally noted film scholar. Author J.B. Kaufman spent years researching the film's history, interviewing participants, and studying the marvelous archival art that appears in these pages. The result is a work that can be appreciated equally as a piece of film history and as a collectable art book, a joy for anyone who loves film, animation, and the magical world that Walt Disney created.

Within three years, her back and stomach muscles had weakened to the point where she needed a tilt-recline wheelchair. Conventional medical treatments were failing her, and she feared that she would be bedridden for the rest of her life. Dr. Wahls began studying the latest research on autoimmune disease and brain biology, and decided to get her vitamins, minerals, antioxidants, and essential fatty acids from the food she ate rather than pills and supplements. Dr. Wahls adopted the nutrient-rich paleo diet, gradually refining and integrating it into a regimen of neuromuscular stimulation. First, she walked slowly, then steadily, and then she biked eighteen miles in a single day. In November 2011, Dr. Wahls shared her remarkable recovery in a TEDx talk that immediately went viral. Now, in *The Wahls Protocol*, she shares the details of the protocol that allowed her to reverse many of her symptoms, get back to her life, and embark on a new mission: to share the Wahls Protocol with others suffering from the ravages of multiple sclerosis and other autoimmune conditions.

daily commitment report peoria il 2021: *These Things I Wish* Lee Pitts, 2006-04-11 Cherish the values of an earlier time, when household chores and simple pleasures -- not the latest video game or a new car at sixteen -- helped children to develop their character When Paul Harvey read Lee Pitts's essay *These Things I Wish* on his nationally syndicated radio show, Paul Harvey News and Comment, listeners everywhere loved it, and it's become a classic that's been passed from parent to child, from friend to friend. Here, for the first time, Pitts's moving text is presented opposite beautiful illustrations in a book that is the perfect gift for parents and children of all ages. Pitts writes that present-day parents have tried hard to make life better for their children -- but instead they've made it worse. What today's young people need are the things that Pitts wishes for them: hand-me-down clothes, leftover meatloaf, having to mow the lawn and do the dishes, punishment when they've done something wrong. . . . He also wishes that they may know the beauty of a mountain range, and the value of hard work and an education. In plain yet beautiful language, Pitts helps us to envision a simpler time, when children weren't so overscheduled and spoiled with every consumer delight they could ever want. Self-sufficiency, humility, quiet wisdom, personal strength -- these are the virtues that are learned through challenge and adversity. *These Things I*

Wish celebrates values from the past that are so necessary for our future -- the values we yearn for in our busy lives.

daily commitment report peoria il 2021: *I'm Black. I'm Christian. I'm Methodist.* Lillian C. Smith, Erin Beasley, Justin Coleman, Jevon Caldwell-Gross, Pamela R. Lightsey, F. Willis Johnson, Vance P. Ross, Rodney Lorenzo Graves, Tori C. Butler, Rev. Rudy Rasmus, 2020-11-03 Ten personal narratives reveal the shared and distinct struggles of being Black in the Church, facing historic and modern racism. It's uncertain that Howard Thurman made the remark often attributed to him, "I have been writing this book all my life," but there is little doubt that he was deeply immersed in reflection on the times that bear an uncanny resemblance to the present day, which give voice to the Black Lives Matter movement. Our "life's book" is filled with sentence upon sentence of marginalization, pages of apartheid, chapters of separate and unequal. Now this season reveals volumes of violence against Blacks in America. Ten Black women and men explore life through the lens of compelling personal religious narratives. They are people and leaders whose lives are tangible demonstrations of the power of a divine purpose and evidence of what grace really means in face of hardship, disappointment, and determination. Each of the journeys intersect because of three central elements that are the focus of this book. We're Black. We're Christians. We're Methodists. Each starts with the fact, "I'm Black," but to resolve the conflict of being Christian and Methodist means confronting aspects of White theology, White supremacy, and White racism in order to ground an oppositional experience toward domination over four centuries in America. "The confluence of the everyday indignities of being Black in America; the outrageous, egregious, legalized lynching of George Floyd; and the unforgivable disparities exposed once again by COVID-19 have conspired together to create a seminal moment in America and in The United Methodist Church—in which we must find the courage to say unambiguously 'Black Lives Matter.' To stumble or choke on those words is beneath the gospel," says Bishop Gregory Palmer, who wrote the foreword to the collection. Praise for *I'm Black. I'm Christian. I'm Methodist.* "This book made me shout, dance, rage and hope—all at once! As a cradle Methodist, I have deep love for my church and bless it for nurturing my walk with Christ and my passion for social justice. At the same time, I lament that my church is also the place where I have witnessed and been most wounded by virulent racism, sexism, heterosexism, and ageism. Yet, I stay and struggle for the soul of the church because I am a Black Christian woman fired by the love of God-in-Christ-Jesus. I stay because this is MY church and the church of my ancestors. Although I regularly question my decision to remain United Methodist, it is stories like these—from other exuberant love warriors—that remind me that I am called by God to stay, pray, fight, and flourish!" —M. Garlinda Burton, deaconess and interim general secretary, General Commission of Religion and Race, Washington DC "Racism continues to be the unacceptable scandal of American society and the American churches. In spite of some gains such as the diversity of supporters for "Black Lives Matter," even the best intentioned among us remain largely ignorant of the actual life experience of those who are other than ourselves. This collection of testimonies, edited by Rudy Rasmus, helps remedy that by simply recounting personal stories of being Black, Christian, and Methodist in the United States. White Methodist Christians in particular need to read these stories and take them to heart so that racism and its divisiveness is countered by shared experience and recognition of common humanity across difference. More White Methodists need not only reject racism in our society and church but become active anti-racists willing to do the hard work to create the beloved community, dreamed about by Martin Luther King in the 1960s civil rights movement. —Bruce C. Birch, Dean Emeritus and Professor Emeritus of Biblical Theology Wesley Theological Seminary, Washington DC "This book is a powerful collection interweaving personal stories, denominational and intercultural practices, and Black lives bearing hopeful witness. Readers will have their consciousness raised, and they will think more deeply about the meaning of beloved community and the embodiment of the justice of God." —Harold J. Recinos, Professor of Church and Society, Perkins School of Theology/SMU, Dallas, Texas "For hundreds of years, we have not listened. This book is our chance to hear the words of the Black leaders in our church. They will change us, remake us, and reform us. Get ready to be transformed by painful truth

and deep love. —Rev. Dr. Dottie Escobedo-Frank, Lead Pastor, Catalina United Methodist Church, Tucson, Arizona I'm Black gives readers a clear picture of the diversity and value of Black culture in church and society. After reading the dynamic stories told by these faithful, transformative church leaders, Black lives will be cherished, and systemic change for the better will take place." —Joseph W. Daniels, Jr., Lead Pastor, Emory United Methodist Church, Washington, D.C. Dr. Rudy Rasmus and others give an insightful look into what it means to be black, Christian and Methodist in America. Their perspectives on the status and plight of being black in America are both engaging and riveting. If you are looking for ways to better understand the nuances and many faces of African American Methodist evangelical life in America, this book is a must-read! —The Reverend J. Elvin Sadler, D.Min., General Secretary-Auditor, The A.M.E. Zion Church Assistant Dean for Doctoral Studies, United Theological Seminary, Dayton, Ohio I endorse this powerful book of Essays conceived and edited by my friend Pastor Rudy Rasmus. It is a book for our current and future realities facing the Black Church a must read. —Deborah Bass, Vice-Chairperson, National BMCR

Allegretto, 2007 Praise for previous editions of The State of Working America: The State of Working America remains unrivaled as the most-trusted source for a comprehensive understanding of how working Americans and their families are faring in today's economy.--Robert B. Reich It is the inequality of wealth, argue the authors, rather than new technology (as some would have it), that is responsible for the failure of America's workplace to keep pace with the country's economic growth. The State of Working America is a well-written, soundly argued, and important reference book.--Library Journal If you want to know what happened to the economic well-being of the average American in the past decade or so, this is the book for you. daily commitment report peoria il 2021: Profit and Punishment Tony Messenger, 2021-12-07 In Profit and Punishment, a Pulitzer Prize-winning journalist exposes the tragedy of modern-day debtors prisons, and how they destroy the lives of poor Americans swept up in a system designed to penalize the most impoverished. "Intimate, raw, and utterly scathing" — Heather Ann Thompson, Pulitzer Prize-winning author of Blood in the Water "Crucial evidence that the justice system is broken and has to be fixed. Please read this book." —James Patterson, #1 New York Times bestselling author As a columnist for the St. Louis Post-Dispatch, Tony Messenger has spent years in county and municipal courthouses documenting how poor Americans are convicted of minor crimes and then saddled with exorbitant fines and fees. If they are unable to pay, they are often sent to prison, where they are then charged a pay-to-stay bill, in a cycle that soon creates a mountain of

debt that can take years to pay off. These insidious penalties are used to raise money for broken local and state budgets, often overseen by for-profit companies, and it is one of the central issues of the criminal justice reform movement. In the tradition of *Evicted* and *The New Jim Crow*, Messenger has written a call to arms, shining a light on a two-tiered system invisible to most Americans. He introduces readers to three single mothers caught up in this system: living in poverty in Missouri, Oklahoma, and South Carolina, whose lives are upended when minor offenses become monumental financial and personal catastrophes. As these women struggle to clear their debt and move on with their lives, readers meet the dogged civil rights advocates and lawmakers fighting by their side to create a more equitable and fair court of justice. In this remarkable feat of reporting, Tony Messenger exposes injustice that is agonizing and infuriating in its mundane cruelty, as he champions the rights and dignity of some of the most vulnerable Americans.

daily commitment report peoria il 2021: *Reforming Juvenile Justice* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Assessing Juvenile Justice Reform, 2013-05-22 Adolescence is a distinct, yet transient, period of development between childhood and adulthood characterized by increased experimentation and risk-taking, a tendency to discount long-term consequences, and heightened sensitivity to peers and other social influences. A key function of adolescence is developing an integrated sense of self, including individualization, separation from parents, and personal identity. Experimentation and novelty-seeking behavior, such as alcohol and drug use, unsafe sex, and reckless driving, are thought to serve a number of adaptive functions despite their risks. Research indicates that for most youth, the period of risky experimentation does not extend beyond adolescence, ceasing as identity becomes settled with maturity. Much adolescent involvement in criminal activity is part of the normal developmental process of identity formation and most adolescents will mature out of these tendencies. Evidence of significant changes in brain structure and function during adolescence strongly suggests that these cognitive tendencies characteristic of adolescents are associated with biological immaturity of the brain and with an imbalance among developing brain systems. This imbalance model implies dual systems: one involved in cognitive and behavioral control and one involved in socio-emotional processes. Accordingly adolescents lack mature capacity for self-regulations because the brain system that influences pleasure-seeking and emotional reactivity develops more rapidly than the brain system that supports self-control. This knowledge of adolescent development has underscored important differences between adults and adolescents with direct bearing on the design and operation of the justice system, raising doubts about the core assumptions driving the criminalization of juvenile justice policy in the late decades of the 20th century. It was in this context that the Office of Juvenile Justice and Delinquency Prevention (OJJDP) asked the National Research Council to convene a committee to conduct a study of juvenile justice reform. The goal of *Reforming Juvenile Justice: A Developmental Approach* was to review recent advances in behavioral and neuroscience research and draw out the implications of this knowledge for juvenile justice reform, to assess the new generation of reform activities occurring in the United States, and to assess the performance of OJJDP in carrying out its statutory mission as well as its potential role in supporting scientifically based reform efforts.

daily commitment report peoria il 2021: The Displaced of Capital Anne Winters, 2008-04-03 Winner of the 2005 Lenore Marshall Poetry Prize. The long-awaited follow-up to *The Key to the City*—a finalist for the National Book Critics Circle Award in 1986—Anne Winters's *The Displaced of Capital* emanates a quiet and authoritative passion for social justice, embodying the voice of a subtle, sophisticated conscience. The displaced in the book's title refers to the poor, the homeless, and the disenfranchised who populate New York, the city that serves at once as gritty backdrop, city of dreams, and urban nightmare. Winters also addresses the culturally, ethnically, and emotionally excluded and, in these politically sensitive poems, writes without sentimentality of a cityscape of tenements and immigrants, offering her poetry as a testament to the lives of have-nots. In the central poem, Winters witnesses the relationship between two women of disparate social classes whose friendship represents the poet's political convictions. With poems both powerful and musical, *The Displaced of Capital* marks Anne Winters's triumphant return and assures her standing as an essential New York poet.

daily commitment report peoria il 2021: Women's Human Rights Susan Deller Ross, 2013-10-09 According to Susan Deller Ross, many human rights advocates still do not see women's rights as human rights. Yet women in many countries suffer from laws, practices, customs, and cultural and religious norms that consign them to a deeply inferior status. Advocates might conceive of human rights as involving torture, extrajudicial killings, or cruel and degrading treatment—all clearly in violation of international human rights—and think those issues irrelevant to women. Yet is female genital mutilation, practiced on millions of young girls and even infants, not a gross violation of human rights? When a family decides to murder a daughter in the name of honor, is that not an extrajudicial killing? When a husband rapes or savagely beats his wife, knowing the legal authorities will take no action on her behalf, is that not cruel and degrading treatment? *Women's Human Rights* is the first human rights casebook to focus specifically on women's human rights. Rich with interdisciplinary material, the book advances the study of the deprivation and violence women suffer due to discriminatory laws, religions, and customs that deny them their most fundamental freedoms. It also provides present and future lawyers the legal tools for change, demonstrating how human rights treaties can be used to obtain new laws and court decisions that protect women against discrimination with respect to employment, land ownership, inheritance, subordination in marriage, domestic violence, female genital mutilation, polygamy, child marriage, and the denial of reproductive rights. Ross examines international and regional human rights treaties in depth, including treaty language and the jurisprudence and general interpretive guidelines developed by human rights bodies. By studying how international human rights law has been and can be implemented at the domestic level through local courts and legislatures, readers will understand how to call upon these newly articulated human rights to help bring about legislation, court

decisions, and executive action that protect women from human rights violations.

daily commitment report peoria il 2021: Illinois's Criminal Justice System Jill Joline Myers, Todd Lough, 2014 Illinois's Criminal Justice System centers on the history, advancements, and changes that developed as Illinois expanded from a totally rural and agricultural region to an area encompassing both its historic roots and a booming urban center with national and international ramifications. As the Land of Lincoln is known both for its metropolitan issues and its downstate farms, so too must its criminal justice system accommodate two diverse populations. Criminal justice professionals who share this diversity of experience contributed to this text. Its authors have backgrounds in urban and rural policing, state and federal law enforcement agencies, local and regional correctional facilities, and state and federal law. The chapters bring this wealth of knowledge together to encompass the diversity of criminal justice challenges that exist within Illinois. Gang problems incumbent in Chicago are interspersed with the methamphetamine laboratories that plague downstate communities. Victim rights, juvenile treatment opportunities, and officer training are all discussed relative to the Illinois financial situation that limits criminal justice options. Finally, this text serves as a valuable resource for all individuals interested in understanding or pursuing a career in the wide-ranging fields of criminal justice.
