History of the Ethiopian Orthodox Church

The Ethiopian Orthodox Tewahedo Church holds a distinguished place in Christian history, tracing its origins back to the early centuries of Christianity. It is believed to have been established in the 4th century by Saint Frumentius, known as Abba Salama, who was consecrated as the first bishop of Ethiopia by the Patriarch of Alexandria. This connection to the Coptic Orthodox Church in Egypt underscores the church's Oriental Orthodox heritage. Over the centuries, the Ethiopian Orthodox Church has preserved many ancient Christian traditions, including the use of the Ge'ez language in its liturgy.

Early Foundations and Development

The church's foundation is deeply intertwined with Ethiopia's historical interactions with the Roman Empire and neighboring Christian communities. It became the state religion during the reign of King Ezana of Aksum in the 4th century, marking a significant milestone in Ethiopian history. The Ethiopian Orthodox Church maintained its independence and unique identity even through periods of foreign invasions and religious challenges.

Relationship with Other Christian Traditions

Despite its Oriental Orthodox roots, the Ethiopian Orthodox Tewahedo Church has developed distinct theological and liturgical characteristics. It has remained separate from both the Eastern Orthodox and Roman Catholic Churches, although it has engaged in ecumenical dialogues. The church's adherence to Miaphysitism, which emphasizes the united divine and human nature of Christ, distinguishes its Christological beliefs.

Core Beliefs and Doctrines

The Ethiopian Orthodox Church's doctrines are rooted in ancient Christian theology, informed by scripture, tradition, and the teachings of the early church fathers. Its beliefs emphasize the incarnation of Jesus Christ, the role of the Holy Trinity, and the significance of sacraments in the spiritual life of believers. The church's theological framework is expressed through its catechism, liturgies, and ecclesiastical teachings.

The Holy Trinity and Christology

The doctrine of the Holy Trinity—God as Father, Son, and Holy Spirit—is central to Ethiopian Orthodox faith. The church teaches Miaphysitism, affirming that Jesus Christ possesses one united nature that is both divine and human. This theological stance influences the church's liturgical prayers and doctrinal statements.

Sacraments and Spiritual Life

The Ethiopian Orthodox Church recognizes seven sacraments, including baptism, confirmation, Eucharist, confession, marriage, holy orders, and anointing of the sick. These sacraments are essential for spiritual growth and salvation. The church also places great importance on fasting, prayer, and participation in communal worship as means to deepen faith and maintain a close relationship with God.

Liturgical Practices and Sacred Traditions

Liturgical worship in the Ethiopian Orthodox Church is characterized by its rich ceremonial traditions, vibrant music, and distinctive rituals. Services are conducted primarily in Ge'ez, the ancient liturgical language, which connects believers to their religious heritage. The church calendar is marked by numerous feasts and fasts that commemorate biblical events and saints.

Divine Liturgy and Worship

The Divine Liturgy, or Qiddus, is the central act of worship, featuring prayers, hymns, scripture readings, and the Eucharist. The use of traditional instruments such as the sistrum and drums enhances the spiritual atmosphere. Clergy and congregants participate in processions, incense offerings, and ritual gestures that symbolize theological truths.

Fasting and Feast Days

Fasting holds a prominent place in Ethiopian Orthodox spirituality, with numerous fasting periods throughout the year. The Great Lent, known as Hudadi, lasts for 55 days and involves strict dietary restrictions. Major feast days include Timkat (Epiphany), Meskel (Finding of the True Cross), and Fasika (Easter), each celebrated with elaborate ceremonies and community gatherings.

Cultural Significance and Community Impact

The Ethiopian Orthodox Church is not only a religious institution but also a cornerstone of Ethiopian cultural identity. Its influence extends into art, music, literature, and social customs, shaping the lives of millions of adherents both within Ethiopia and across the diaspora. The church fosters social cohesion and provides moral guidance to its communities.

Religious Art and Architecture

Ethiopian Orthodox churches are renowned for their distinctive architecture, often featuring circular or rectangular shapes with intricately carved woodwork and colorful murals depicting biblical scenes and saints. Religious manuscripts and icons are treasured cultural artifacts that reflect theological themes and historical narratives.

Community Services and Education

The church plays a vital role in education and social welfare, operating schools, hospitals, and charitable organizations. It promotes literacy in Ge'ez and Amharic languages and supports initiatives aimed at preserving Ethiopian heritage. Through its social teachings, the church encourages ethical behavior and communal responsibility.

ethiopianorthodox org: *The Traditional Teaching of the Ethiopian Orthodox Tāwahedo Church* Christine Chaillot, 2023-11-06 Christine Chaillot's new book, *The Traditional Teaching of the Ethiopian Orthodox Tāwahedo Church: Faith and Spirituality*, presents a topic that is little known outside Ethiopia, even in Christian circles. Moreover, it is a much neglected field in the wider study of African education. It is a teaching based on ancient texts and books, taught orally to

the students who will become the future clergy and who will then share their knowledge with the faithful in Church life. The studies of the different disciplines are pursued at different schools and at different levels, in liturgy, theology with commentaries of books (Old and New Testaments, books of the Church fathers and monks) as well as composition of poems (qenes) and iconography. All this teaching presented in the present volume is deeply related to the faith and spirituality of the Ethiopian Orthodox Church. This teaching is a unique intangible cultural heritage. One wonders, however, what its future will be in the context of the modern educational methods and social attitudes that have evolved in Ethiopia over the last half-century.

ethiopianorthodox org: The Queen of Sheba Deborah M. Coulter-Harris, 2013-05-28 Part I of this book begins with a scriptural study of all Sheba references, particularly the origins and genealogy of the name and its connections with Hebrew patriarchs such as Abraham and kings Saul and David; it later explores the literature and legends surrounding king Solomon and his trade negotiations with Sheba. The text analyzes theories and links between the Queen of Sheba and Pharaoh Hatshepsut, and concludes that Sheba may well be the Pharaoh based upon linguistic associations and the related stories from a multitude of regions and countries. Part II travels into ancient Arabian, Yemeni, Ethiopian, and Eritrean tales of the Queen of Sheba, and examines the mention of Sheba in an array of Jewish, Christian, and Muslim texts. It scrutinizes associations between ancient gods and pharaohs, particularly the similarity of their iconographic representations, the meaning of their symbols and signs that connect with Sheba legends and Hatshepsut's history, the real extent and location of her vast empire.

ethiopianorthodox org: The Orthodox Church of Ethiopia John Binns, 2016-11-28 Surrounded by steep escarpments to the north, south and east, Ethiopia has always been

geographically and culturally set apart. It has the longest archaeological record of any country in the world. Indeed, this precipitous mountain land was where the human race began. It is also home to an ancient church with a remarkable legacy. The Ethiopian Church forms the southern branch of historic Christianity. It is the only pre-colonial church in sub-Saharan Africa, originating in one of the earliest Christian kingdoms—with its king Ezana (supposedly descended from the biblical Solomon) converting around 340 CE. Since then it has maintained its long Christian witness in a region dominated by Islam; today it has a membership of around forty million and is rapidly growing. Yet despite its importance, there has been no comprehensive study available in English of its theology and history. This is a large gap which this authoritative and engagingly written book seeks to fill. The Church of Ethiopia (or formally, the Ethiopian Orthodox Tewahedo Church) has a recognized place in worldwide Christianity as one of five non-Chalcedonian Orthodox Churches. As Dr Binns shows, it has developed a distinctive approach which makes it different from all other churches. His book explains why this happened and how these special features have shaped the life of the Christian people of Ethiopia. He discusses the famous rock-hewn churches; the Ark of the Covenant (claimed by the Church and housed in Aksum); the medieval monastic tradition; relations with the Coptic Church; co-existence with Islam; missionary activity; and the Church's venerable oral traditions, especially the discipline of *gene*—a kind of theological reflection couched in a unique style of improvised allegorical poetry. There is also a sustained exploration of how the Church has been forced to re-think its identity and mission as a result of political changes and upheaval following the overthrow of Haile Selassie (who ruled as Regent, 1916-1930, and then as Emperor, 1930-74) and beyond.

ethiopianorthodox.org: *The Stranger at the Feast* Tom Boylston, 2018-01-12 At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. *The Stranger at the Feast* is a pathbreaking ethnographic study of one of the world's oldest and least-understood religious traditions. Based on long-term ethnographic research on the Zege peninsula in northern Ethiopia, the author tells the story of how people have understood large-scale religious change by following local transformations in hospitality, ritual prohibition, and feeding practices. Ethiopia has undergone radical upheaval in the transition from the imperial era of Haile Selassie to the modern secular state, but the secularization of the state has been met with the widespread revival of popular religious practice. For Orthodox Christians in Zege, everything that matters about religion comes back to how one eats and fasts with others. Boylston shows how practices of feeding and avoidance have remained central even as their meaning and purpose has dramatically changed: from a means of marking class distinctions within Orthodox society, to a marker of the difference between Orthodox Christians and other religions within the contemporary Ethiopian state.

ethiopianorthodox org: Historical Dictionary of Ethiopia David H. Shinn, Thomas P. Ofcansky, 2013-04-11 Ethiopia is clearly one of the most important countries in Africa. First of all, with about 75 million people, it is the third most populous country in Africa. Second, it is very strategically located, in the Horn of Africa and bordering Eritrea, Sudan, Kenya, and Somalia, with some of whom it has touchy and sometimes worse relations. Yet, its capital - Addis Ababa - is the headquarters of the African Union, the prime meeting place for Africa's leaders. So, if things went poorly in Ethiopia, this would not be good for Africa, and for a long time this was the case, with internal disruption rife, until it was literally suppressed under the strong rule of the recently deceased Meles Zenawi. The Historical Dictionary of Ethiopia, Second Edition covers the history of Ethiopia through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has several hundred cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for

students, researchers, and anyone wanting to know more about Ethiopia.

ethiopianorthodox.org: *Perception and Identity* Seblewengel Daniel, 2019-10-14 Ethiopia is an icon of freedom and indigenous Christianity across Africa due to its historic independence, ancient Christian identity and rich religious heritage. However, Ethiopia and its various Christian denominations have their own understandings of this identity and how these communities relate to one another. In this detailed study, Dr Seblewengel Daniel explores the perception and identity of the Ethiopian Orthodox Church and evangelical church in Ethiopia and examines the relations between the two. Beginning with the earliest evangelical missionary engagement with the Orthodox church, Dr Daniel skilfully uses historical and theological frameworks to explain the dynamics at play when approaching the relations over two centuries between these two churches and their respective communities. Daniel ultimately emphasizes that what unites the Orthodox and evangelical church is greater than what divides – namely an ancient faith in the triune God. This important study urges both sides to place the Bible at the centre, using it to understand their differences, and challenges them to take responsibility for past negative perceptions in order to move forward together in greater unity and mutual respect.

The book underscores the fact that there are many ways in which humanity has sought revelation of God, yet there is a common inspiration behind humanity's God concept. The author's analysis of world religions or faiths adopts a multi-interdisciplinary approach taking the reader through historical, anthropological, archaeological, and theological viewpoints to make juxtapositions. God in us is a rich resource that helps the readers understand the origins of human civilisation and how humans began to worship God, domesticate animals like sheep, invent astrology and create languages. ethiopianorthodox.org: *The Rise of the Prophetic Voice* Alph Lukau, 2019-10-24 The Rise of the Prophetic Voice is an educational and revolutionary book that deals with biblical truths about the prophetic and its practical operation in our time. This book is a rare tool of the Holy Spirit, dedicated to shedding light about the prophetic to the body of Christ and to raising an end-time army of prophets for the Lord. The prophetic is the oldest and most documented ministry in the Bible, yet it is the least known in today's generation. No other ministry is known to be more effective in the Kingdom of God than the prophetic. The Bible, the most sacred book we have in the Kingdom of God, is a prophetic book; the birth of our Lord and Saviour Jesus Christ was a fulfilment of a prophetic word. God is restoring the prophetic in the church and calling all his sons and daughters to be

prophetic. The world today glorifies individualism and independence from God as a pathway to freedom, rendering the very essence of God irrelevant. However, the well-informed, Spirit-led and powerful revelations in * Rise of the Prophetic Voice * demonstrate God's unfailing power and establishes his supremacy amongst men once again. This book will give you the biblical foundation of the prophetic, help you to discover your calling or gift in it and ignite in you its fire. Beyond all doubts, I believe this book will revolutionise the lives of its readers and restore the glory of the mighty God in the world.

ethiopianorthodox org: THE BOOK OF ENOCH UNVEILED Edward D. Andrews, 2023-03-24 In The Book of Enoch Unveiled, the author delves into the enigmatic world of the apocryphal and pseudepigraphical text attributed to Enoch, offering a conservative, apologetic, and Evangelical perspective on its origins, content, and influence throughout history. With an investigative approach, this meticulously researched work dissects the myths and legends that have surrounded the Book of Enoch for centuries while shedding light on the reasons behind its exclusion from the Biblical canon. The author exposes the false attribution of authorship and explores the chronological impossibilities, anachronisms, and theological inconsistencies that permeate the text. Through a comprehensive examination of the Book of Enoch's content, including the stories of the Watchers, Nephilim, and Enoch's prophetic claims, the author demonstrates the divergence of the text from the essential tenets of Scripture. The work also delves into the influence of the Book of Enoch on the New Testament and early Christianity, as well as its persistence in modern times, exploring the Ethiopian Orthodox Church's canonization of the text and its revival in popular culture. The Book of Enoch Unveiled serves as a clarion call for believers to reaffirm their commitment to the inspired and inerrant Word of God, encouraging discernment and a deeper understanding of the Bible's authority. This thought-provoking work is an invaluable resource for those seeking to explore the complexities of apocryphal and pseudepigraphical literature while remaining firmly grounded in the truth of Scripture.

ethiopianorthodox org: Adapting Gender and Development to Local Religious Contexts Romina Istratii, 2020-10-01 This book provides a critical and decolonial analysis of gender and development theory and practice in religious societies through the presentation of a detailed ethnographic study of conjugal violence in Ethiopia. Responding to recent consensus that gender mainstreaming approaches have failed to produce their intended structural changes, Romina Istratii explains that gender and development analytical and theoretical frameworks are often constructed through western Euro-centric lenses ill-equipped to understand gender-related realities and human behaviour in non-western religious contexts and knowledge systems. Instead, Istratii argues for an approach to gender-sensitive research and practice which is embedded in insiders' conceptual understandings as a basis to theorise about gender, assess the possible gendered underpinnings of local issues and design appropriate alleviation strategies. Drawing on a detailed study of conjugal abuse realities and attitudes in two villages and the city of Aksum in Northern Ethiopia, she demonstrates how religious knowledge can be engaged in the design and implementation of remedial interventions. This book carefully evidences the importance of integrating religious traditions and spirituality in current discussions of sustainable development in Africa, and speaks to researchers and practitioners of gender, religion and development in Africa, scholars of non-western Christianities and Ethiopian studies, and domestic violence researchers and practitioners.

ethiopianorthodox org: The Cambridge Companion to Orthodox Christian Theology Elizabeth Theokritoff, 2008-12-18 Orthodox Christian theology is often presented as the direct inheritor of the doctrine and tradition of the early Church. But continuity with the past is only part of the truth; it would be false to conclude that the eastern section of the Christian Church is in any way static. Orthodoxy, building on its patristic foundations, has blossomed in the modern period. This

volume focuses on the way Orthodox theological tradition is understood and lived today. It explores the Orthodox understanding of what theology is: an expression of the Church's life of prayer, both corporate and personal, from which it can never be separated. Besides discussing aspects of doctrine, the book portrays the main figures, themes and developments that have shaped Orthodox thought. There is particular focus on the Russian and Greek traditions, as well as the dynamic but less well-known Antiochian tradition and the Orthodox presence in the West.

ethiopianorthodox.org: *Visions of Zion* Erin C. MacLeod, 2014-07-04 In reggae song after reggae song Bob Marley and other reggae singers speak of the Promised Land of Ethiopia. "Repatriation is a must!" they cry. The Rastafari have been travelling to Ethiopia since the movement originated in Jamaica in 1930s. They consider it the Promised Land, and repatriation is a cornerstone of their faith. Though Ethiopians see Rastafari as immigrants, the Rastafari see themselves as returning members of the Ethiopian diaspora. In *Visions of Zion*, Erin C. MacLeod offers the first in-depth investigation into how Ethiopians perceive Rastafari and Rastafarians within Ethiopia and the role this unique immigrant community plays within Ethiopian society. Rastafari are unusual among migrants, basing their movements on spiritual rather than economic choices. This volume offers those who study the movement a broader understanding of the implications of repatriation. Taking the Ethiopian perspective into account, it argues that migrant and diaspora identities are the products of negotiation, and it illuminates the implications of this negotiation for concepts of citizenship, as well as for our understandings of pan-Africanism and south-south migration. Providing a rare look at migration to a non-Western country, this volume also fills a gap in the broader immigration studies literature.

ethiopianorthodox org: Religion and Nature Conservation Radhika Borde, Alison A Ormsby, Stephen M Awoyemi, Andrew G Gosler, 2022-10-31 This book presents a broad array of global case studies exploring the interaction between religion and the conservation of nature, from the viewpoints of the religious practitioners themselves. With conservation and religion often being championed as allies in the quest for a sustainable world where humans and nature flourish, this book provides a much-needed compendium of detailed examples where religion and conservation science have been brought together. Case studies cover a variety of religions, faiths and practices, including traditional, Indigenous, Buddhism, Christianity, Hinduism, Islam, Jainism, Judaism, Shinto and Zoroastrianism. Importantly, this volume gives voice to the religious practitioners and adherents themselves. Beyond an exercise in anthropology, ethnobiology and comparative religion, the book is an applied work, seeking the answer to how in a world of nearly eight billion people, we might help our own species to prevent the extinction of life. This book will be of great interest to students and scholars of nature conservation, environment and religion, cultural geography and ethnobiology, as well as practitioners and professionals working in conservation.

ethiopianorthodox org: Oromo Indigenous Religion and Oromo Christianity Ujulu Tesso Benti, 2018-05-31 The early non-Oromo writers have distorted the history of the Oromo. Without scientific research, they were speaking of the so-called Oromo migration of the 16th century. Against the unscientific thesis, of the early scholars, this work confirmed the Oromo to be not only the indigenous African peoples, but also belong to the Cushitic Africans who invented the first world civilization. Their egalitarian and holistic culture, the gadaa system is part of the ancient Cushitic civilization. It is the base for modern democratic system of governance. The root word of 'gadaa' is originated from 'Ka', the creator God of the ancient religion of the Cushitic Africans. From this very name, Ka originated the Oromo word "Waaqa", which also means creator of everything. This shows that the Oromo are among the first nations who came up with the idea of monotheism. Therefore, this work disqualifies the missionary assumptions describing the Oromo Indigenous Religion (OIR) as Satanism and its religious experts, the Qaalluus as witchdoctors or sorcerers. This dissertation discovered many identical, similar, partial similar and few differing elements between the Oromo Indigenous Religion (OIR) and Oromo Christianity (OC). Also, the study identified many Oromo cultural elements that are compatible to Christianity, therefore must be adopted by the Oromo Christianity. According modern scholarship God revealed himself in every human culture and religion is part of human culture. Therefore, no religion can claim to be "the only true religion". Based on this principle, this dissertation calls all leaders of religious institutions in Oromia, to change their attitude, develop culture of tolerance, conduct constructive religious dialogue, create the atmosphere of peaceful coexistence of all religions and establish sustainable peace that serves humanity.

ethiopianorthodox org: The Rebirth of African Orthodoxy Thomas C. Oden, 2016-04-05 African orthodoxy today reveals the same powerful faith that was confessed by Athanasius and Augustine seventeen centuries ago. Classic African Christian teaching in the patristic period (100-750 AD) preceded modern colonialism by over a thousand years. Many young African women and men are now reexamining these lost roots. They are hungry for accurate information about their Christian ancestors. Thomas C. Oden asks readers to recapture the resonance of a consensual orthodoxy, the harmony of voices celebrating the apostolic testimony to God's saving work in Jesus Christ, witnessed to in scripture and understood best by African interpreters of the faith. In ten seminars, Oden invites discerning readers to reclaim and reaffirm Christian faith as it emerges from thoughtful conversations between contemporary and ancient African interpreters of orthodox faith. "This new book by Tom Oden is remarkable and historic. His words challenge the worldwide church to return to the true fountain of living water, Jesus Christ. He specifically encourages us Africans to continue to seek the treasures left to us by our early church fathers and mothers in order to reshape the Christian mind now as they did in the first millennium." -The Most Rev. Dr. Mouneer Hanna Anis, Archbishop of the Episcopal/Anglican Diocese of Egypt with North Africa and the Horn of

Africa "A thought-provoking book with factual evidences emphasizing the continuity of global orthodoxy that emanated in Africa and has been nurtured by Africans from the time of Mark the evangelist to the present. People yearning to discover the intellectual and classical African Christian roots will find the book very helpful." -Thomas A. Oduro, President, Good News Theological College & Seminary, Accra, Ghana "While Tom Oden writes about Africans for Africans, *The Rebirth of African Orthodoxy: Return to Foundations* is also addressed to all Christians everywhere who ask, 'What is God doing in the world today?' The author proposes that the clue to what God is doing in the present is to be found in what God has done in the past, for 'the Holy Spirit has a history.' Tom directs us to look to Africa, where the ancient African Christian orthodoxy is being reborn in the African church today, making it a witness to the whole church everywhere." -Timothy W. Whitaker, retired bishop, Florida Conference of The United Methodist Church

It provides a comprehensive overview of the dynamics between Eastern Christianity and politics from the end of the Second World War to the fall of communism, covering 40 Orthodox churches including diasporic churches in Africa, Asia, America and Australia. ethiopianorthodox org: *Fasting, food, and farming: Evidence from Ethiopian producers on the link of food taboos with dairy development* D'Haene, Eline, Vandeveld, Senne, Minten, Bart, 2020-05-01 The impact of food taboos - often because of religion - is understudied. In Ethiopia,

religious fasting by Orthodox Christians is assumed to be an important impediment for the sustainable development of a competitive dairy sector and desired higher milk consumption, especially by children. However, evidence is limited. Relying on unique data, we shed light on three major issues. First, we observe that the average annual number of fasting days that Orthodox adults are effectively adhering to is 140, less than commonly cited averages. Using this as an estimate for extrapolation, fasting is estimated to reduce annual dairy consumption by approximately 12 percent nationally. Second, farms adapt to declining milk demand during fasting by increased processing of milk into storable products – fasting contributes to larger price swings for these products. We further note continued sales of milk by non-remote farmers and reduced production – by adjusting lactation times for dairy animals – for remote farmers. Third, fasting is mostly associated with increased milk consumption by the children of dairy farmers, seemingly because of excess milk availability during fasting periods. Our results suggest that fasting habits are not a major explanation for the observed poor performance of Ethiopia's dairy sector nor low milk consumption by children. To reduce the impact of fasting on the dairy sector in Ethiopia further, investment is called for in improved milk processing, storage, and infrastructure facilities.
