interpreter of maladies pdf: The Lowland Jhumpa Lahiri, 2013-01-01 SHORTLISTED FOR THE MAN BOOKER PRIZE 2013. From Subhash's earliest memories, at every point, his brother was there. In the suburban streets of Calcutta where they wandered before dusk and in the hyacinth-strewn ponds where they played for hours on end, Udayan was always in his older brother's sight. So close in age, they were inseparable in childhood and yet, as the years pass – as U.S tanks roll into Vietnam and riots sweep across India – their brotherly bond can do nothing to forestall the tragedy that will upend their lives. Udayan – charismatic and impulsive – finds himself drawn to the Naxalite movement, a rebellion waged to eradicate inequity and poverty. He will give everything, risk all, for what he believes, and in doing so will transform the futures of those dearest to him: his newly married, pregnant wife, his brother and their parents. For all of them, the repercussions of his actions will reverberate across continents and seep through the generations that follow. Epic in its canvas and intimate in its portrayal of lives undone and forged anew, The Lowland is a deeply felt novel of family ties that entangle and fray in ways unforeseen and unrevealed, of ties that ineluctably define who we are. With all the hallmarks of Jhumpa Lahiri's achingly poignant, exquisitely empathetic story-telling, this is her most devastating work of fiction to date.

interpreter of maladies pdf: Translating Myself and Others Jhumpa Lahiri, 2022-05-17 Luminous essays on translation and self-translation by the award-winning writer and literary translator Translating Myself and Others is a collection of candid and disarmingly personal essays by Pulitzer Prize-winning author Jhumpa Lahiri, who reflects on her emerging identity as a translator as well as a writer in two languages. With subtlety and emotional immediacy, Lahiri draws on Ovid's myth of Echo and Narcissus to explore the distinction between writing and translating, and provides a close reading of passages from Aristotle's Poetics to talk more broadly about writing, desire, and freedom. She traces the theme of translation in Antonio Gramsci's Prison Notebooks and takes up the question of Italo Calvino's popularity as a translated author. Lahiri considers the unique challenge of translating her own work from Italian to English, the question "Why Italian?," and the singular pleasures of translating contemporary and ancient writers. Featuring essays originally written in Italian and published in English for the first time, as well as essays written in English, Translating Myself and Others brings together Lahiri's most lyrical and eloquently observed meditations on the translator's art as a sublime act of both linguistic and personal metamorphosis.

interpreter of maladies pdf: Whereabouts Jhumpa Lahiri, 2021-04-27 NEW YORK TIMES BESTSELLER • A marvelous new novel from the Pulitzer Prize-winning author of The Lowland and Interpreter of Maladies about a woman questioning her place in the world, wavering between stasis

and movement, between the need to belong and the refusal to form lasting ties. “Another masterstroke in a career already filled with them.” —O, the Oprah Magazine Exuberance and dread, attachment and estrangement: in this novel, Jhumpa Lahiri stretches her themes to the limit. In the arc of one year, an unnamed narrator in an unnamed city, in the middle of her life’s journey, realizes that she’s lost her way. The city she calls home acts as a companion and interlocutor: traversing the streets around her house, and in parks, piazzas, museums, stores, and coffee bars, she feels less alone. We follow her to the pool she frequents, and to the train station that leads to her mother, who is mired in her own solitude after her husband’s untimely death. Among those who appear on this woman’s path are colleagues with whom she feels ill at ease, casual acquaintances, and “him,” a shadow who both consoles and unsettles her. Until one day at the sea, both overwhelmed and replenished by the sun’s vital heat, her perspective will abruptly change. This is the first novel Lahiri has written in Italian and translated into English. The reader will find the qualities that make Lahiri’s work so beloved: deep intelligence and feeling, richly textured physical and emotional landscapes, and a poetics of dislocation. But *Whereabouts*, brimming with the impulse to cross barriers, also signals a bold shift of style and sensibility. By grafting herself onto a new literary language, Lahiri has pushed herself to a new level of artistic achievement.

interpreter of maladies pdf: *The Black Jacobins* C.L.R. James, 2023-08-22 A powerful and impassioned historical account of the largest successful revolt by enslaved people in history: the Haitian Revolution of 1791–1803 “One of the seminal texts about the history of slavery and abolition.... Provocative and empowering.” —The New York Times Book Review *The Black Jacobins*, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L’Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming French, Spanish, and English forces—and in the process helped form the first independent post-colonial nation in the Caribbean. With a new introduction (2023) by Professor David Scott.

interpreter of maladies pdf: *Diamond Dust* Anita Desai, 2000-05-19 A collection of stories stretching from India to New England to Mexico from the author of *Fasting, Feasting*—an “undeniable genius” (The Washington Post Book World). The men and women in these nine tales set out on journeys that suddenly go beyond the pale—or surprisingly lead them back to where they started. In the mischievous title story, a beloved dog brings nothing but disaster to his obsessed master; in other tales, old friendships and family ties stir up buried feelings, demanding either renewed commitment or escape. And in the final exquisite story, a young woman discovers a new kind of freedom in Delhi’s rooftop community. This is a richly diverse, “quiet but deeply satisfying” collection of stories, from a three-time Man Booker Prize finalist (Kirkus Reviews). “Anita Desai is one of the most brilliant and subtle writers ever to have described the meeting of eastern and western culture . . . Both serious and wonderfully entertaining.” —Alison Lurie, Pulitzer Prize-winning author of *Foreign Affairs* “Served up with characteristic perspicuity, subtle humor and attention to the little hypocrisies of the middle class.” —Publishers Weekly

interpreter of maladies pdf: *After Melancholia* Delphine Munos, 2013-10-10 Mindful of the tunnel vision sometimes created by the privileging of ‘hybridity talk’ and matters of culture in discussions of texts by minority writers, Delphine Munos in *After Melancholia* reads the work of the Bengali-American celebrity author Jhumpa Lahiri against the grain, by shifting the ground of analysis from the cultural to the literary. With the help of psychoanalytic theories ranging from Sigmund Freud through André Green and Nicolas Abraham to Jean Laplanche, this study re-evaluates the complexity of Lahiri’s craft and offers major insights into the author’s representation of second-generation diasporic subjectivity – an angle hitherto neglected by critics working from the narrower theoretical boundaries of transnationalism, diaspora studies, postcolonial

theory, and Asian-American studies alike. Via interdisciplinary incursions into the domains of literary and psychoanalytic criticism, as well as into those of trauma and diaspora studies, Munos takes up “Hema and Kaushik,” the triptych of short stories included in *Unaccustomed Earth* (2008), as exemplary texts in which Lahiri redefines notions of belonging and arrival regarding the Bengali-American second generation, not in terms of cultural assimilation – which would hardly make sense for characters born in the USA in the first place – but in terms of a resymbolization of the gaps in the parents’ migrant narratives. Munos’ in-depth reading of Lahiri’s trilogy is concerned with exploring how “Hema and Kaushik” signifies on the absent presences haunting transgenerational relationships within the US diasporic family of Bengali descent. Bringing to the forefront such ‘negative’ categories as the gap, the absent, the unsaid, the melancholically absented mother, *After Melancholia* reveals that the second-generation ‘Mother Diaspora’ is no less haunting than her first-generation counterpart, ‘Mother India’. Calling for a re-assessment of Lahiri’s work in terms of a dialectical relationship between (transgenerational) mourning and melancholia, Munos provides a compelling reading grid by means of which underrepresented aspects of the rest of Lahiri’s work, especially her novel *The Namesake* (2003), gain new visibility. Delphine Munos is a F.R.S.-FNRS postdoctoral researcher in the Department of English and American Literatures at the University of Liège (Belgium). She has published in the field of American and postcolonial literature, diaspora studies, and South Asian studies.

Nuland, 2011-10-19 From the author of *How We Die*, the extraordinary story of the development of modern medicine, told through the lives of the physician-scientists who paved the way. How does medical science advance? Popular historians would have us believe that a few heroic individuals, possessing superhuman talents, lead an unselfish quest to better the human condition. But as renowned Yale surgeon and medical historian Sherwin B. Nuland shows in this brilliant collection of linked life portraits, the theory bears little resemblance to the truth. Through the centuries, the men and women who have shaped the world of medicine have been not only very human, but also very much the products of their own times and places. Presenting compelling studies of great medical innovators and pioneers, *Doctors* gives us a fascinating history of modern medicine. Ranging from the legendary Father of Medicine, Hippocrates, to Andreas Vesalius, whose Renaissance masterwork on anatomy offered invaluable new insight into the human body, to Helen Taussig, founder of pediatric cardiology and co-inventor of the original blue baby operation, here is a volume filled with the spirit of ideas and the thrill of discovery.

interpreter of maladies pdf: *The Unbearable Lightness of Being* Milan Kundera, 2023-03-28 “Far more than a conventional novel. It is a meditation on life, on the erotic, on the nature of men and women and love . . . full of telling details, truths large and small, to which just about every reader will respond.” — People In *The Unbearable Lightness of Being*, Milan Kundera tells the story of two couples, a young woman in love with a man torn between his love for her and his incorrigible womanizing, and one of his mistresses and her humbly faithful lover. In a world in which lives are shaped by irrevocable choices and by fortuitous events, a world in which everything occurs but once, existence seems to lose its substance, its weight. Hence, we feel the unbearable lightness of being not only as the consequence of our pristine actions but also in the public sphere, and the two inevitably intertwine. This magnificent novel is a story of passion and politics, infidelity and ideas, and encompasses the extremes of comedy and tragedy, illuminating all aspects of human existence.

2013-06-17 Purity and Danger is acknowledged as a modern masterpiece of anthropology. It is widely cited in non-anthropological works and gave rise to a body of application, rebuttal and development within anthropology. In 1995 the book was included among the Times Literary Supplement's hundred most influential non-fiction works since WWII. Incorporating the philosophy of religion and science and a generally holistic approach to classification, Douglas demonstrates the relevance of anthropological enquiries to an audience outside her immediate academic circle. She offers an approach to understanding rules of purity by examining what is considered unclean in various cultures.
