jesus christ superstar script: *Jesus Christ Superstar* Ellis Nassour, 2024-02-29 In 1969, when Andrew Lloyd Webber and Tim Rice decided to write a rock opera about Jesus Christ, they had little idea they were about to embark on one of the most popular, boundary-pushing, and influential musicals ever. The show's success was hardly assured at first: unable to secure enough funding, they initially resorted to just releasing its title song as a single. A full album followed to widespread acclaim, and only then could a full production get underway. More than fifty years later, Jesus Christ Superstar continues to be beloved in all its forms—the live show, various cast albums, and the wildly

successful movie. Few people had the chance to witness the musical's evolution from as many angles as Ellis Nassour, whether collaborating with Rice and Lloyd Webber at MCA, writing for the New York Times, or assisting with the Broadway and LA productions. In this expansive, beautifully illustrated book, Nassour draws on a wealth of knowledge, first-hand experience, and new interviews to give the definitive story of the musical. Combining an engaging narrative with abundant photographs—many in color and never before published—he follows the show from its uncertain beginnings, through setbacks and controversies, to Tim Rice and Andrew Lloyd Webber's ultimate triumph, serving up an unparalleled look at one of the most important and best-selling musical works of all time.

jesus christ superstar script: *The Cabal of Moloch and Saturn Cosmology* David Klooz, 2023-11-15 This book is a short description of how Zionist zealots have planned and implemented messianic protocols since 3,000 BCE by writing a bible that stole creation myths from the Babylonian Enuma Elish and the Egyptian Book of the Dead and by stealing the sacred stones of the Egyptian Ark of the Great Pyramid under the leadership of Akhenaten (Moses) and fleeing to Palestine where they, once again, took over the land occupied by the Canaanites and called it Israel. Archeologic and genetic data support that both Jews and Palestinians came from ancient Canaanites, who extensively mixed with Egyptians, Mesopotamian, and Anatolian peoples in ancient times. Thus, Palestinian-Jewish rivalry is based solely on cultural and religious, but not in genetic differences. Does anyone really believe that the storm God El, then Baal, then combined with Yahweh wrote the bible and decided that Jews would be the chosen people. Since the Spring of 2020, when mandated Covid-19 vaccines began, excess deaths have increased dramatically across the globe to about 20%, while unknown causes of death have increased significantly. The numerous lockdowns (stay at home of the workforce), fear campaigns, COVID-19 policy mandates imposed on approximately 193 member states of the United Nations have also contributed to undermining and destabilizing the very fabric of civil society and its institutions including education, culture and the arts, social gatherings, sports, entertainment; all public sector activities including physical and social infrastructure, social services, law enforcement; all major private sector activities which characterize national, regional and local economies including small, medium and large corporate enterprises, family farms, industry, wholesale and retail trade, the urban services economy, transport companies, airlines, hotel chains; the structures of the global economy including international commodity trade, investment, import and export relations between countries, while the entire landscape of the global economy has been shattered. Each culture has a 'Creation Myth' that is contained in their own understanding of those cataclysm events that occurred between 10,500 BCE and 685 BCE. The West has primarily used the myth in the Judeo-Christian bible. However, you would think in the year 2020 people would understand that the bible is fiction and has significant reasons for concern, such as the following: the similarities of stories; obvious rehashing of numerous previous character; unavoidable contradictions; significant moral problems, including rape, murder and incest, and an abundance of nagging questions. Unless you are mindless, one can easily understand that a book like this can be used mainly for control, but in some hands it can be used to create a self-fulfilling prophecy. The Bible Is Really the Story of Creation of the Solar System. The Bible was initially stories that were written down and cobbled together and tales told verbally by their descendants over thousands of years that tried to explain the birth of the present Solar System, and what the survivors witnessed. It began in about 10,500 BCE and ended about 685 BCE. Millions of years ago, our Earth and was created by an expulsion of plasma from its brown dwarf star, now known as the Planet Saturn. Mars was also created from a plasma expulsion from the brown dwarf, when it came under electrical stress in the plasma Universe. Saturn, as a brown dwarf, with the Earth and Mars within its plasma glow mode, had an atmosphere of salt, hydrocarbons and water that misted down on both planets for millions or billions of years, providing its oceans and oil pockets. Brown dwarfs are known to be the best home for the development of life since the glow mode provides one warm temperature with no seasons and promotes growth under its ultraviolet and infrared atmosphere. It has recently been discovered that Saturn is the only planet with the

same molecular type of water as Earth. Our Earth does not wobble around its pole, as is currently believed, every 25,920 years due to solar-lunar forces acting on the Earth. It was known long ago by the Ancients that the so called change in some stars 'precessing' against the sky was caused by the path of our sun and planets and other stars travelling and revolving around electric Birkeland Current filaments that circle around certain stars; the star Arcturus, the star Alcyone and the star Sirius. The revolution of our current Sun with Sirius occurs every 25,000 years, with the Arcturus filament stream every 550,000 years and with Alcyone, and the Pleiades star system, every 26-27 million years. This last cycle is important since it corresponds to the same 26-27 million year extinction cycle of our Earth. It is believed that Earth's extinction level events occurred as the Saturnian System with Earth and Mars within its orbit crossed the position of our current Sun and its planets every 26-27 million years, resulting in the mass extinctions. The biology of Earth is such a complete accident, and so utterly unlikely that it will probably not have ever been duplicated anywhere, at anytime, among the billions of other star systems. But here on Earth, all of it, especially the rise of complex species since the Cambrian, 560 million years ago, can be attributed to a series of cataclysmic plasma strikes by Saturn, each of a very long duration: biologists claim 10,000 years for the extinction events. At about 10,500 BCE, the Earth, at that time a planet of the Sun, made an electric field contact with Saturn, causing 1500 years of darkness on Earth. The period of darkness is recognized by many of the world's creation myths and was recorded in the illustrated graphic books of Mesoamerica, references to which are made in the Colonial period documents. Climatologically, the period is identified today as the Younger Dryas, when for some 1500 years Earth got as cold as it had ever been. Over the next 7000 years the orbit of Earth, apparently equal to the orbit of Saturn at that time, but below Saturn, progressively moved laterally to have the Earth's orbital path eventually travel below the centre of Saturn. Thus, between 10,500 BCE and 3147 BCE, earth was part of a strange configuration of stacked planets, a condition which provided long summers and a mild climate in the northern hemisphere. Planets, dominated by the giant form of Saturn, stood above the north horizon and close to Earth but measured in millions of miles and were taken by humans to be the Gods who supported them and for whose benefit they labored at agriculture and conducted trade. In 4070 BCE, Saturn dropped its coma. This had been the 'chaos before creation', which had lasted some 7,000 years and had obscured Saturn and its companion satellites. Saturn went Nova, and switched to arc mode. In a mass expulsion Saturn produced its rings and a new satellite, Venus. Saturn lit up more brilliantly than the Sun. For humans of Earth, who had not clearly seen the real Sun for thousands of years because of the shadow of the Younger Dryas, followed by the obscurity of the enclosing plasmasphere of Saturn, this was the creation, the start of time, and the first showing of the land and its resident Gods, the satellites of Saturn. Saturn was universally called the Sun throughout the world at this time. In 3147 BCE, as Mars began to oscillate between Venus and Earth this configuration of standing planets became unstable and broke apart, with the three large planets moving away from the Sun, while Earth, Venus and Mars were released to their overlapping inner orbits. The breakup produced a stupendous flood waters, which had been held at the south polar region due to gravitational attraction of Saturn for some 7,000 years. The water held at the South Pole was due to the lifting up of the Earth's crust in the Arctic, and the sinking toward the Earth's interior in Antarctica. This was the end of the 'Golden Age'. When the Solar System re-arrangement was complete it formed the basis of all religions, myths and mystery schools.

jesus christ superstar script: *Henry Hathaway* Harold N. Pomainville, 2016-06-10 For the casual film fan, Henry Hathaway is not a household name. But in a career that spanned five decades, Hathaway directed an impressive number of films and guided many actors and actresses to some their most acclaimed performances. He also helped launch the Hollywood careers of numerous actors such as Randolph Scott, Lee Marvin, Karl Malden, and Charles Bronson. His work on *Niagara* established Marilyn Monroe as a major star. Hathaway also guided John Wayne to his Academy Award-winning performance in the original version of *True Grit*. In *Henry Hathaway: The Lives of a Hollywood Director*, Harold N. Pomainville looks at the life and work of this Hollywood maverick. The author charts Hathaway's career from his first low budget Western in the early 1930s through his last film in 1974. In between, he focuses his attention of the films that brought the director acclaim, including *The Lives of Bengal Lancer* (1935)—for which Hathaway received an Oscar nomination—noir thrillers *The House on 92nd Street* and *Kiss of Death*, and his documentary-like production of *Call Northside 777* with Jimmy Stewart. In this book, the author captures Hathaway's extroverted personality and keen intellect. He befriended some of the best known celebrities of his generation and was known for his loyalty, generosity, and integrity. He was also notorious in Hollywood for his powerful ego, explosive temper, and his dictatorial style on the set. *Henry Hathaway: The Lives of a Hollywood Director* is a must-read for anyone interested in the enduring work of this unheralded, but no-less-noteworthy, master of American cinema.

jesus christ superstar script: How Coppola Became Cage Zach Schonfeld, 2023-04-25 *How Coppola Became Cage* chronicles Nicolas Cage's early career and rise to fame, examining the formative performances that made him an icon of independent cinema in the 1980s and early 1990s. Drawing on more than 100 new interviews with Cage's collaborators-including filmmakers David Lynch, John Patrick Shanley, Mike Figgis, Martha Coolidge, and Amy Heckerling-this book offers a revealing portrait of Cage's origin story as a member of the Coppola family, his early roles in low-budget teen films, and his rise to stardom with memorable performances in cult films like *Raising Arizona*, *Moonstruck*, and *Wild at Heart*. The book examines how Cage drew on influences as eclectic as silent cinema and German Expressionism while displaying an intense commitment to his performances both on- and off-screen. The book demystifies the actor's onscreen eccentricities and argues that his commercial failures are as interesting as his successes. *How Coppola Became Cage* meticulously traces Cage's career from 1981, when he was a young drama student at Beverly Hills High, to 1995, when he gave an Oscar-winning performance as a suicidal alcoholic in *Leaving Las Vegas*--

jesus christ superstar script: Jesus, the Gospels, and Cinematic Imagination Richard Walsh, Jeffrey L. Staley, 2021-08-12 *Jesus films* arose with cinema itself. Richard Walsh and Jeffrey L. Staley introduce students to these films with a general overview of the Jesus film tradition and with specific analyses of 22 of its most influential exemplars, stretching from *La vie du Christ* (1906) to *Mary Magdalene* (2018). The introduction to each film includes discussion of plot, characters, visuals, appeal to authority, and cultural location as well as consideration of the director's (and/or other filmmakers') achievements and style. Several film chapters end with reflections on problematic issues bedeviling the tradition, such as cultural imperialism and patriarchy. To assist teachers and researchers, each chapter includes a listing of DVD chapters and the approximate "time" (for both DVDs and streaming platforms) at which key film moments occur. The book also includes a *Gospels Harmony* cataloging the time at which key gospel incidents appear in these films. Extensive endnotes point readers to other important work on the tradition and specific films. While the authors strive to set the Jesus film tradition within cinema and its interpretation, the DVD/streaming listing and the *Gospels Harmony* facilitate the comparison of these films to gospel interpretation and the Jesus tradition.

jesus christ superstar script: Performing Personality David Crider, 2016-06-07 This book examines how radio announcers construct, prepare, and perform their on-air personalities during a time when the radio industry is fighting to stay relevant amid expanding media options. Crider

conducted interviews with key on-air personnel at eleven broadcast stations in order to analyze how each individual created a narrative on-air personality, conducted conversations outside of their performance, were affected by the setting and situation, embraced the role of the listening audience, and reduced the social distance between them and listener. Crider argues that the successful deployment of on-air identity across multiple channels (in-person, online, and through social media as well as broadcast) provides assurance that a space for radio will remain despite the expanding number of media options.

jesus christ superstar script: Hollywood and Israel Tony Shaw, Giora Goodman, 2022-03-08 Winner, 2023 Shapiro Best Book Award, Association for Israel Studies From Frank Sinatra's early pro-Zionist rallying to Steven Spielberg's present-day peacemaking, Hollywood has long enjoyed a "special relationship" with Israel. This book offers a groundbreaking account of this relationship, both on and off the screen. Tony Shaw and Giora Goodman investigate the many ways in which Hollywood's moguls, directors, and actors have supported or challenged Israel for more than seven decades. They explore the complex story of Israel's relationship with American Jewry and illuminate how media and soft power have shaped the Arab-Israeli conflict. Shaw and Goodman draw on a vast range of archival sources to demonstrate how show business has played a pivotal role in crafting the U.S.-Israel alliance. They probe the influence of Israeli diplomacy on Hollywood's output and lobbying activities, but also highlight the limits of ideological devotion in high-risk entertainment industries. The book details the political involvement with Israel—and Palestine—of household names such as Eddie Cantor, Kirk Douglas, Elizabeth Taylor, Barbra Streisand, Vanessa Redgrave, Arnold Schwarzenegger, Robert De Niro, and Natalie Portman. It also spotlights the role of key behind-the-scenes players like Dore Schary, Arthur Krim, Arnon Milchan, and Haim Saban. Bringing the story up to the moment, Shaw and Goodman contend that the Hollywood-Israel relationship might now be at a turning point. Shedding new light on the political power that images and celebrity can wield, *Hollywood and Israel* shows the world's entertainment capital to be an important player in international affairs.

jesus christ superstar script: Raising Curtains on Education Clar Doyle, 1993-02-22 Believing that transformation is possible and that it must come from within, Clar Doyle illustrates the vital connection between drama and critical pedagogy. Presuming that a practice informed by the theory of critical pedagogy is essential to achieve an emancipatory education, Doyle shows how well drama and aesthetic education can encourage a pedagogy that is critical. He explores the real as well as the perceived values and understandings given to the aesthetic in school settings, how tastes and awareness are produced and how students' backgrounds inform the way in which art and drama are experienced. Furthermore, Doyle shows the ways in which the dominant cultural agencies rob both teachers and students of creativity through their reproductive policies. The book explores such critical questions as: the nature of culture; the historical place of drama within education; and the debate between drama and theatre as it applies to schooling. With a critical perspective, he reviews the current status of drama education and suggests ways in which educators can redefine their mission and refine their practice. By examining the influence of the culture industry and the

issues surrounding style choices, Doyle highlights the challenge that teachers must meet in order to use performance skills to tease out attitudes and understandings. He concludes by showing how drama can help students, not only to bring about change in their own lives, but to effect change in the world around them.

Praise for the earlier edition—Zaniello has created a useful and far-reaching guide with abundant information.... These are the sorts of films that prove what James Agee wrote in these pages nearly fifty years ago: 'The only movies whose temper could possibly be described as heroic, or tragic, or both, have been made by leftists.'—The Nation Zaniello has done a monumental job identifying the films that should be included in this genre.... *Working Stiffs, Union Maids, Reds, and Riffraff* is sorely needed and long overdue.—Cineaste An engaging and opinionated book.... Even though mining, trucking, Jimmy Hoffa, and class warfare are the book's major themes, what holds the project together is Zaniello's sense of fun and wit. [Zaniello is] a better writer than most major film critics.—Village Voice Literary Supplement

jesus christ superstar script: A Piece of the Action Eithne Quinn, 2019-12-31 Hollywood is often thought of—and certainly by Hollywood itself—as a progressive haven. However, in the decade after the passage of the Civil Rights Act, the film industry grew deeply conservative when it came to conflicts over racial justice. Amid black self-assertion and white backlash, many of the most heated struggles in film were fought over employment. In A Piece of the Action, Eithne Quinn reveals how Hollywood catalyzed wider racial politics, through representation on screen as well as in battles over jobs and resources behind the scenes. Based on extensive archival research and detailed discussions of films like In the Heat of the Night, Sweet Sweetback's Baadasssss Song, Super Fly, Claudine, and Blue Collar, this volume considers how issues of race and labor played out on the screen during the tumultuous early years of affirmative action. Quinn charts how black actors leveraged their performance capital to force meaningful changes to employment and film content. She examines the emergence of Sidney Poitier and other African Americans as A-list stars; the careers of black filmmakers such as Melvin Van Peebles and Ossie Davis; and attempts by the federal government

and black advocacy groups to integrate cinema. Quinn also highlights the limits of Hollywood's liberalism, showing how predominantly white filmmakers, executives, and unions hid the persistence of racism behind feel-good stories and public-relations avowals of tolerance. A rigorous analysis of the deeply rooted patterns of racial exclusion in American cinema, *A Piece of the Action* sheds light on why conservative and corporate responses to antiracist and labor activism remain pervasive in today's Hollywood.

jesus christ superstar script: Film, Philosophy and Religion , Hollywood is a \$40 billion annual business, one that is highly influential in culture. If we want to know who we are as individuals and a society, what we believe and what we value, we need to know and understand Hollywood and film. Make no mistake, Hollywood is neither philosophically, politically, nor morally neutral! Many studies demonstrate how movies "affect" us long before we have thought it through. In other words, Hollywood "smuggles" all kinds of ideas into our minds and hearts without us even knowing it. While Hollywood may be the biggest and most influential in the world, this book will demonstrate the growing international influence of film from India (Bollywood), Nigeria (Nollywood), Zimbabwe (Zollywood) and Yesilçam (Turkey). 'Film, Philosophy and Religion' explicitly and implicitly takes a philosophical approach to analyzing film theoretically and methodologically. There are topic and film-specific chapters that take a theological approach, and others that explore ideas like Affect, Axiology, Art Reflecting the Artist and Transcendence (Spirituality) of Film. Hermeneutics also have a central role in the book, including films based on biblical texts that act as interpretations of these texts and fill in the blanks (albeit speculatively by way of script and directors). Chapters also explore the philosophy of aesthetics and film realism which end with theology, while other chapters explore the incompatibility of science with religion, as well as a chapter on the timely topic of rape in Turkish film. The book's scope goes from the "Horror of Evil in Ridley Scott's Alien Universe" to "Love Can Thaw a Frozen Heart: The Philosophy of Love in the Frozen Films" (Disney Princess Narratives). This book represents international films and scholars. The diverse perspectives from theist to atheist—and everything in-between—are sure to spark thinking and generate talking points that provide something for everyone in an accessible format. It will be of great interest to university students and professors, scholars, seminaries, and the general public.
